www.3gsmartlibrary.com

3gsmartlibrary.com is an online platform for Academic and Public libraries offering science, technology, vocational and humanities digital eBooks & Resources and Digital Interactive reference library collections. The platform has been built specifically with libraries and institutions in mind to allow them to access content of their specific needs anytime and anywhere. With over 10000+ Videos, e-lectures, quizzes, mind maps, activities and 100's of eBooks & Resources and new addition to our platform each year providing libraries and institutions flexibility to build specific collections which best fit their needs and budgets.

From eBooks & Resources and Interactive content, we cover wide range of subjects such as Agriculture, Aquaculture, Arts Biology, Business and Management, Careers, Chemistry, Computer Science, Education and Psychology, Engineering and Technology, Environmental Science, Healthcare, Hospitality and Tourism, Law, Mathematics and Statistics, Physics, Science and Technology, Social Science, Sports and Vocational Education.

Benefits

- Any Number of users
- Thousands of exclusive online eBooks & Resources and educational courses
- New resources and educational content added yearly
- Unlimited access across the campus
- Ultimate tool for classroom teaching and libraries
- Designed for teachers and students

USP

- One of the largest online learning platform for Academic, Public and School libraries with 1000's of eBooks & Resources and Interactive content
- Curriculum aligned content
- Written, Compiled and edited by Experts
- Largest Selection of Vocational courses for skill development
- Various other subject areas eBooks & resources and courses
- Multimedia based interactive courses with engaging content for better and clear understanding

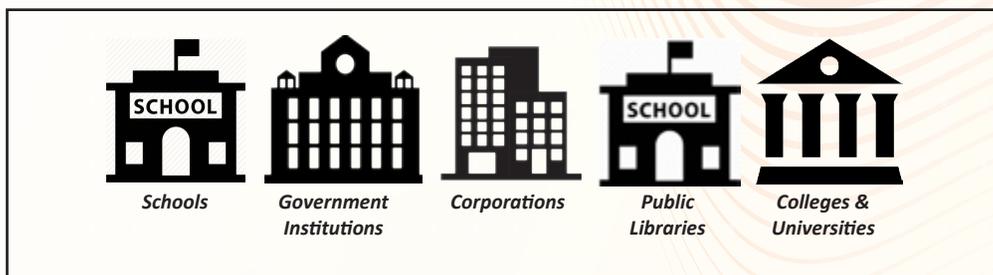

Features

- Interactive Content
- eBooks, Articles, Videos, Activites and much more

Forest Ecology

Forest Ecology is the study of the interrelationships among organisms and their environment within forested ecosystems. It encompasses topics such as forest structure and dynamics, biodiversity, nutrient cycling, and ecosystem processes. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686121
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

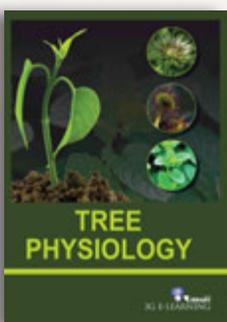

Forest Genetics and Improvement

This course covers the principles of genetics and breeding in forest trees, as well as the techniques and strategies used for improving forest tree populations through tree breeding programs. The course also explores the application of biotechnology and genomics in forest tree improvement. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686138
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

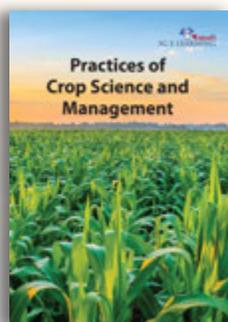

Tree Physiology

Tree Physiology is the study of how trees function, grow, and respond to their environment at the cellular, molecular, and whole-tree levels. This course covers topics such as water and nutrient uptake, photosynthesis, respiration, growth, and reproduction, as well as the effects of environmental factors on tree physiology. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686145
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

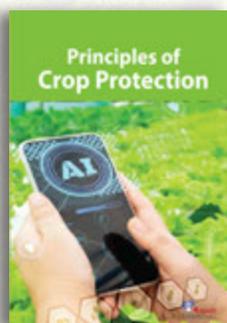

Practices of Crop Science and Management

This course covers the fundamental principles and practices of crop science and management, including plant growth and development, soil fertility, pest management, and crop improvement. Students will gain a comprehensive understanding of the factors that affect crop production and learn strategies for sustainable and efficient management of agricultural systems. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686299
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

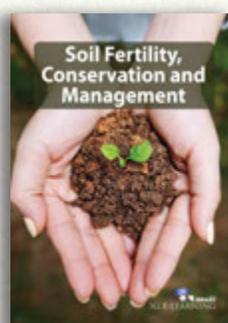

Principles of Crop Protection

This course focuses on the fundamental principles of pest management in agriculture, including the study of pests, diseases, and weeds, as well as the methods and strategies for their control. Students will learn about the various approaches to crop protection, including cultural, biological, and chemical control methods, and how to apply these approaches in a sustainable and environmentally responsible manner. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686305
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

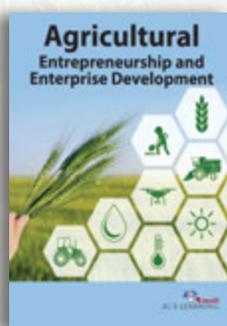

Soil Fertility, Conservation and Management

This course will cover the principles and practices of soil fertility, conservation, and management, including soil structure, nutrient cycling, erosion control, and sustainable agriculture. Students will learn about the various techniques and technologies used to maintain and improve soil health for productive and environmentally sustainable land use. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686312
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

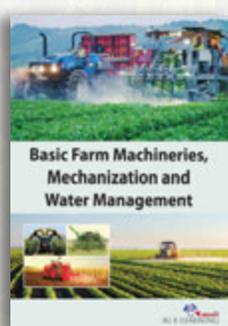

Agricultural Entrepreneurship and Enterprise Development

The Agricultural Entrepreneurship and Enterprise Development course aims to equip individuals with the knowledge and skills necessary to establish and manage successful agricultural enterprises. The course covers topics such as market analysis, financial management, risk assessment, and innovation in agriculture. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686329
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

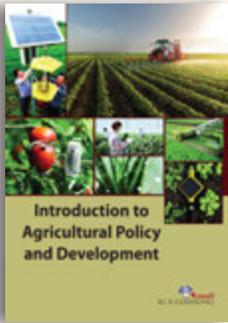

Basic Farm Machineries, Mechanization and Water Management

This course covers the fundamentals of basic farm machinery and equipment, as well as the principles of mechanization and water management in agriculture. It provides practical knowledge and skills that are essential for modern farming practices, including the use of tractors, plows, irrigation systems, and more. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686336
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

Introduction to Agricultural Policy and Development

This course provides an overview of agricultural policies and their role in shaping agricultural development. Students will explore the historical and contemporary context of agricultural policy, as well as key actors, institutions, and policy instruments. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686343
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

Agribusiness Management

Agribusiness management is a specialized field of study that focuses on the business aspects of agriculture and related industries. It covers topics such as farm management, marketing, finance, supply chain management, and agricultural policy. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686466
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

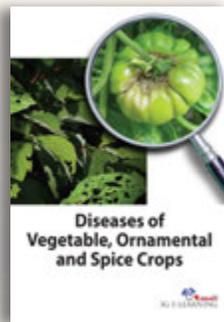

Agrochemicals

This course will explore the use of agrochemicals in modern agriculture, including the benefits and potential risks associated with their use. Students will learn about different types of agrochemicals, their modes of action, and the regulatory framework surrounding their use. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686473
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

Diseases of Vegetable, Ornamental and Spice Crops

This course focuses on the identification, diagnosis, and management of diseases affecting these types of plants. Students will learn about the various pathogens, their life cycles, and effective control methods. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686480
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

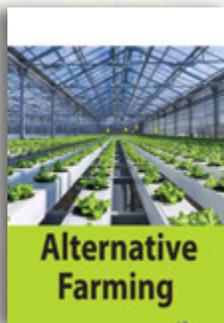

Hill Farming

Hill farming is a type of agriculture that is practiced in areas with steep slopes, high altitudes, and poor soil quality. This course will cover topics such as grazing management, soil conservation, animal husbandry, and sustainable farming practices specific to hill farming. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686497
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

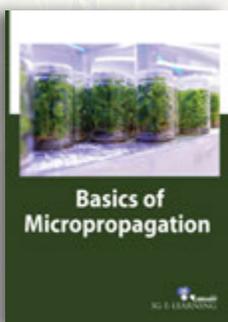

Alternative Farming

This course will explore sustainable and innovative farming methods that minimize environmental impact while increasing productivity. Students will learn about techniques such as agroforestry, aquaponics, and regenerative agriculture. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686503
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

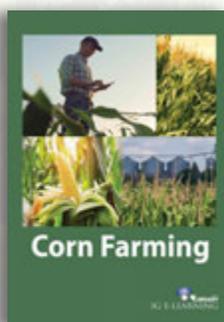

Basics of Micropropagation

Micropropagation is a technique used in plant tissue culture to rapidly propagate large numbers of genetically identical plants. This course covers the principles and techniques of micropropagation, including media preparation, sterilization, explant selection, culture initiation, proliferation, and rooting. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686510
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

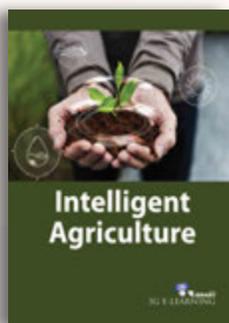

Corn Farming

This course on corn farming will cover the basics of planting, growing, and harvesting corn crops. Students will learn about soil preparation, crop management, pest control, and market strategies to maximize yields and profits. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this

ISBN 9781984686527
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

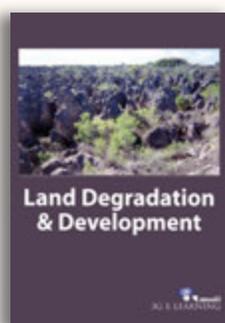

Intelligent Agriculture

Intelligent Agriculture course explores the integration of technology and data analytics in agriculture to enhance productivity, efficiency, and sustainability. Students will learn about precision agriculture, smart farming, and the use of sensors, drones, and machine learning algorithms in agriculture. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686534
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

Land Degradation & Development

The Land Degradation & Development course focuses on the impact of human activities on land degradation and the implementation of sustainable land management practices. Students will explore the causes, consequences, and solutions to land degradation, with an emphasis on practical approaches to promoting sustainable development. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686541
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

Medicinal Plants

This course will explore the properties and uses of various medicinal plants. Students will learn about the history and cultural significance of these plants, as well as their applications in modern medicine and natural remedies. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686558
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

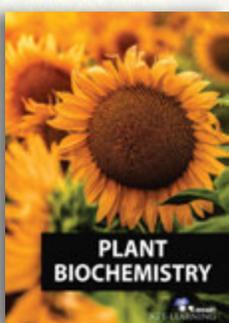

Paleobotany

Paleobotany is the study of ancient plants and their evolution over time. This course covers topics such as fossilization, plant morphology, paleoecology, and the use of plant fossils in reconstructing past environments. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686565
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

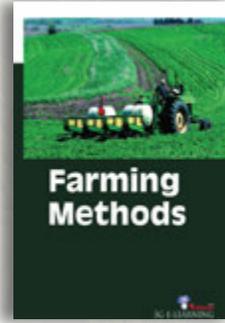

Plant Biochemistry

Plant Biochemistry is a study of the chemical processes and biomolecules that occur in plants, including carbohydrates, lipids, proteins, and nucleic acids, and their roles in plant growth, development, and adaptation to environmental stress. The course covers topics such as photosynthesis, respiration, metabolism, signal transduction, and plant-microbe interactions. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686572
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

Farming Methods

The course aims to discuss the principles and strategies of sustainable agriculture as well as describe ecological farming production methods. This course equips beginners and advanced level learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-297-1
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

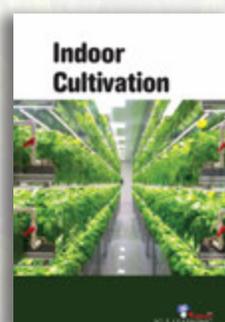

Horticulture

This course traces the growth of gardens, their history and development and provides information on the various principal horticultural practices. The course carries information on fundamentals of vegetables, fruits, ornamental plants, spices, medicinal and aromatic plants and post-harvest technology. It brings e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-299-5
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

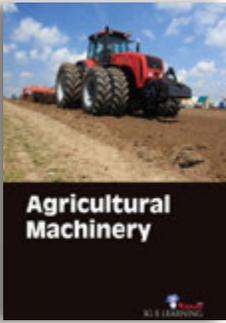

Indoor Cultivation

This interactive course presents cutting edge indoor growing space design and construction, climate-control systems and facility functions. It focuses on how to reduce food insecurity, develop sustainable, pesticide-free food systems and integrate diverse perspectives to solve a growing, global food crisis. The interactive course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98467-300-8
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

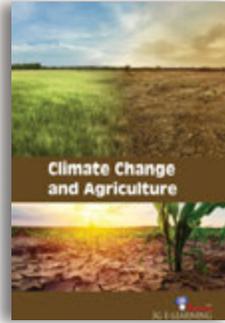

Agricultural Machinery

The course covers basic principles and the use of modern technology. This interactive course is designed to develop skills in selection, operation, maintenance and management of agricultural machinery. In this interactive course, the coverage of e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-293-3
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

Climate Change and Agriculture

The course provides the most recent understanding about climate change and its effects on agriculture. It covers a broad range of issues related to climate change and agriculture. This course provides the coverage of e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-294-0
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

Crop Management

The course covers comprehensive information on introduction of agriculture and relationship of Agronomy with other disciplines, tillage practices, and nutrient elements for plant growth, weeds and their management, irrigation management. The course prepares learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-295-7
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

Dairy Farming

This interactive course covers the topics of infrastructure requirements, cattle management, milking equipment and techniques, cow selection, and business logistics. This course equips beginners and advanced level learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-296-4
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

Soil Chemistry

This interactive course provides comprehensive coverage of the chemical interactions among organic and inorganic solids, air, water, microorganisms, and the plant roots in soil. It brings e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-303-9
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

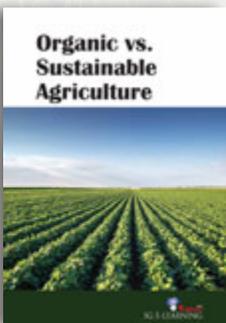

Farming with Waste Management

This interactive course bridges the gap between theory and practice as well as between the many disciplines that are involved in agricultural waste management. The course is intended to the re-use of waste and residues from the agricultural sector. This course equips learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-298-8
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

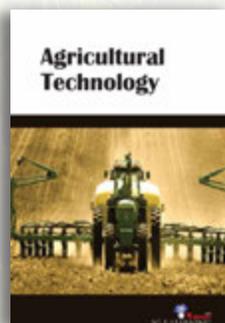

Organic vs. Sustainable Agriculture

The course provides readers with a basic idea of organic farming that presents advancements in the field and insights on the future. This course summarizes advanced knowledge and methods to recycle waste and fertilize soils in agriculture. The interactive course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98467-301-5
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

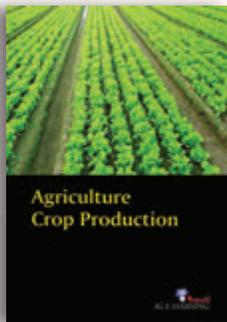

Agricultural Technology

This course provides a review of agriculture technology development, followed by a presentation of the state-of-the-art and future requirements of agriculture technology. This course equips beginners and advanced level learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-302-2
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

Agriculture Crop Production

Crop production deals with growing crops for use as food and fiber. This interactive course offers the learners new insights in the area of agricultural crop production, with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98461-379-0
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

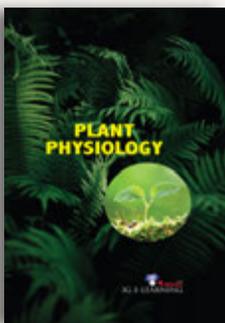

Farm Management, Bookkeeping & Accounting

This course covers to running a successful and profitable farm, focusing on account keeping. Agricultural Accounting addresses every aspect of the accounting that one might encounter in a farm, ranch, or related business. The course prepares learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-179-4
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

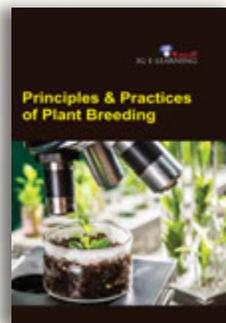

Plant Physiology

This course provides basic and quick information about various important concepts in plant and crop physiology. The course provides a broad explanation of the physiology for plants (their functions) from seed germination to vegetative growth, maturation, and flowering. In this interactive course, the coverage of e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-253-1
www.3gsmartlibrary.com

Price: \$75 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

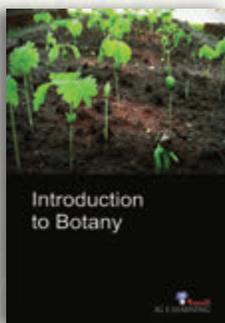

Principles & Practices of Plant Breeding

Plant breeding can rightly be considered as one of the oldest multidisciplinary subjects known to humans. Covering traditional and emerging breeding procedures, this course explores the scientific bases and details of breeding plants. The course prepares learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-255-5
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

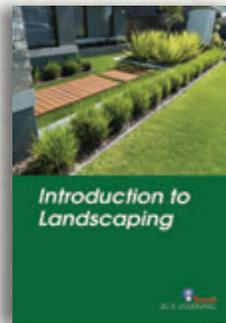

Introduction to Botany

This interactive course provides a modern and comprehensive overview of the fundamentals of botany, providing e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98461-382-0
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

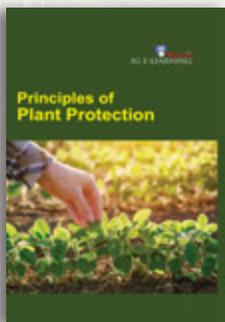

Introduction to Landscaping

This interactive course reveals the vital components of landscape design, offering advice on choosing a site, selecting plants, creating garden accessories, and maintaining a landscape. It brings e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98461-386-8
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

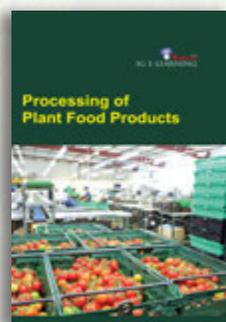

Principles of Plant Protection

The theme of this course is to acquaint with latest knowledge in rational use of pesticides in plant disease and pest management. This course explores the theme of sustainable agricultural development in the developing world, with a particular focus on crop protection. The course prepares learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-258-6
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

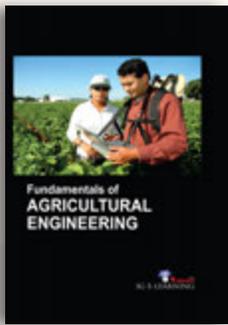

Processing of Plant Food Products

This course deals with the technology involved in the initial and further processing, storage and packaging of plant derived food products. This course equips learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-260-9
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

Fundamentals of Agricultural Engineering

In this interactive course, the coverage of e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test that exposes the reader to a wide array of engineering principles and their application to agriculture. This introductory course is designed for undergraduate students of agricultural engineering for courses in hydrology, and soil and water conservation engineering.

ISBN 978-1-98463-072-8
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

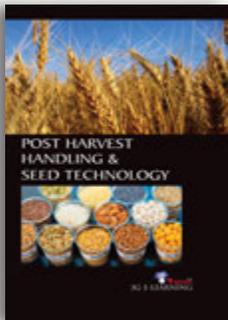

Fundamentals of Soil Science

In this interactive course, the coverage of e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test that deals with the study of formation, nature, ecology, and classification of soil. The course leads the user towards an understanding of how the sustainability of soils, biodiversity, and ecosystem services can be maintained.

ISBN 978-1-98463-073-5
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

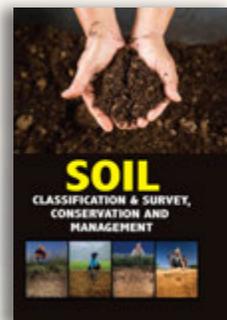

Post Harvest Handling & Seed Technology

In this interactive course, the emphasis is on current state-of-the-art and emerging post-harvest and processing technologies. E-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

Career as a Teacher

A teacher can make a huge difference in the lives of his or her students; this resource equips learners with articles for theoretical understanding and videos for practical knowledge. It explores career possibilities in teaching, discussing the educational requirements, duties, work environment, salary, employment outlook, and possible future positions potential within the field of education.

ISBN: 978-1-98461-866-5 Price: \$70 | Year: 2020 | eBook & Resources | Level: Beginner
www.3gsmartlibrary.com

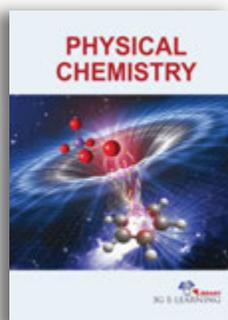

Quantitative Chemistry

Quantitative Chemistry is a branch of chemistry that focuses on the numerical measurement of chemical reactions and properties. It involves the use of mathematical concepts and tools to analyze and interpret data related to chemical reactions and compositions. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686169
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

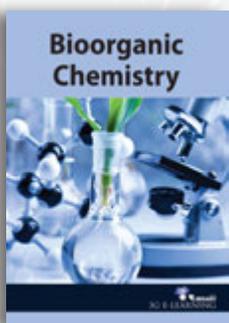

Physical Chemistry

Physical Chemistry is the study of the fundamental principles governing the behavior of matter at a molecular and atomic level. This course includes the study of thermodynamics, quantum mechanics, kinetics, and spectroscopy, with applications in fields such as materials science, chemical engineering, and biophysics. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686176
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

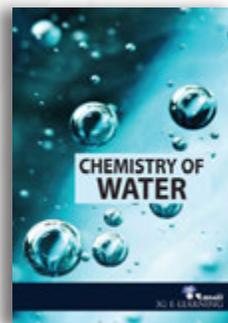

Bioorganic Chemistry

Bioorganic chemistry is the study of chemical processes within living organisms and the application of organic chemistry principles to understand and develop new molecules and materials for use in medicine, biotechnology, and other fields. This course combines the principles of chemistry, biology, and physics to explore the complex interactions between biological molecules and their environments. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686718
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

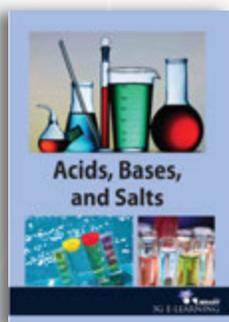

Chemistry of Water

The chemistry of water is the study of the chemical properties and behavior of the molecule H₂O, including its structure, bonding, reactions, and interactions with other substances. This course covers topics such as the properties of water, acid-base chemistry, solubility, and chemical equilibria related to water systems. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686725
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

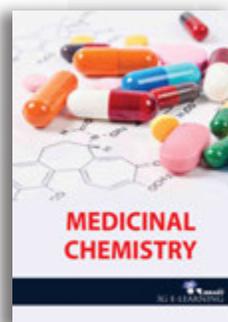

Acids, Bases, and Salts

This course explores the fundamental concepts of acids, bases, and salts in chemistry, including their properties, reactions, and applications in various fields. Students will learn about pH, acid-base titration, buffer solutions, and the role of acids, bases, and salts in biological and environmental systems. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686732
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

Medicinal Chemistry

Medicinal chemistry is a field of study that explores the design, synthesis, and evaluation of drugs with the goal of discovering and developing new therapeutic agents for the treatment of diseases. This course combines principles from chemistry, biology, pharmacology, and other related fields to understand the chemical properties of drugs and their interactions with biological systems. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686749
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

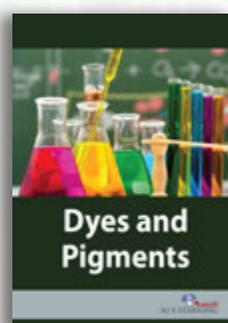

Crystallography

Crystallography is the study of the arrangement of atoms in solids, which has applications in fields such as materials science, chemistry, and biology. This course will cover the basic principles of crystallography, including crystal structures, diffraction, and symmetry, as well as their practical applications in research and industry. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686756
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

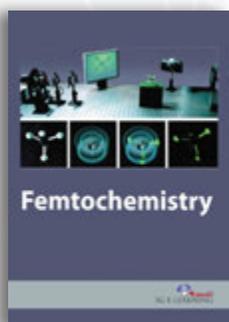

Dyes and Pigments

This course explores the science and technology behind dyes and pigments, including their chemical properties, synthesis, and applications in various industries. Students will learn about the principles of color theory, the methods of colorimetry, and the environmental impact of dyeing and pigment production. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686763
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

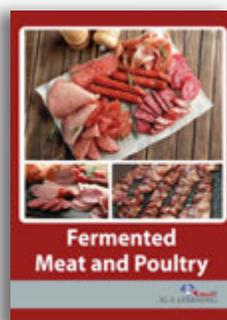

Femtochemistry

Femtochemistry is the study of chemical reactions that occur on extremely short timescales, typically in the femtosecond range (10⁻¹⁵ seconds). This course will explore the principles and experimental techniques of Femtochemistry, including ultrafast laser spectroscopy and time-resolved measurements. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686770
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

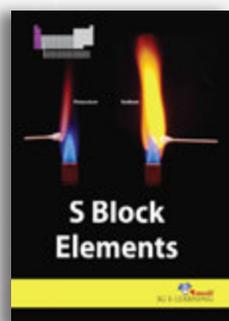

Fermented Meat and Poultry

This course will explore the art and science of fermenting meat and poultry, covering topics such as the history of fermentation, types of fermentation, and the microbiology behind the process. Students will also learn how to properly ferment various types of meat and poultry, and explore the cultural and culinary significance of fermented meats. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686787
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

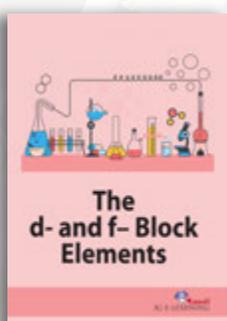

S Block Elements

S block elements are a group of chemical elements in the periodic table that have their outermost electrons in the s subshell. This course covers the properties, reactions, and applications of these elements, including alkali metals and alkaline earth metals. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686794
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

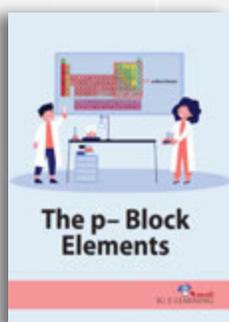

The d- and f- Block Elements

S block elements are a group of chemical elements in the periodic table that have their outermost electrons in the s subshell. This course covers the properties, reactions, and applications of these elements, including alkali metals and alkaline earth metals. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686800
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

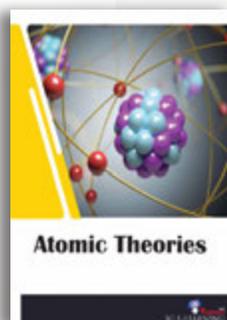

The p-Block Elements

The p-block elements are a group of elements in the periodic table that have valence electrons in the p orbital of their outermost shell. This course will cover the physical and chemical properties, reactions, and uses of these elements, as well as their significance in various fields such as medicine, agriculture, and industry. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686817
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

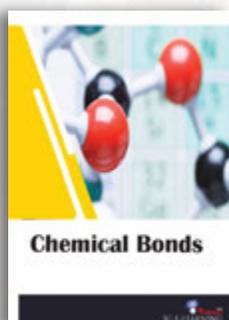

Atomic Theories

Summarizing the most novel facts and theories which were coming into prominence at the time, this course equips learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-392-3
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

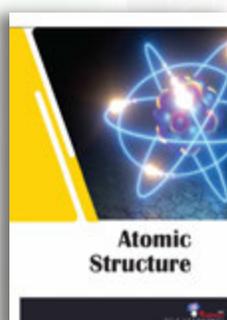

Chemical Bonds

Chemical Bonding refers to the formation of a chemical bond between two or more atoms, molecules, or ions to give rise to a chemical compound. It explores the types of chemical bonds and their general properties. This course equips beginners and advanced level learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-390-9
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

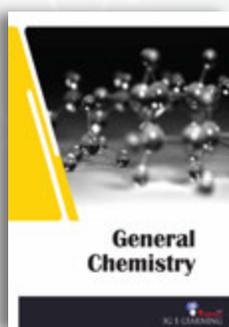

Atomic Structure

Describes the origin and classification atoms and elements. Provides understanding of the dual property of the electron and attempts explaining the existence of electrons of the atom in orbits and how these orbits are related to the energy states of the atoms in a one electron system. This course equips beginners and advanced level learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-391-6
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

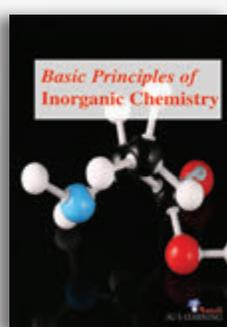

General Chemistry

Presents an introduction to the general principles of chemistry for students planning a professional career in chemistry, a related science, the health professions, or engineering. The interactive course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98467-393-0
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

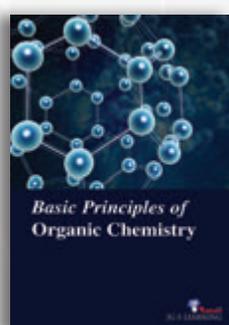

Basic Principles of Inorganic Chemistry

This interactive course includes a clear exposition of general topics concerning the structures of solids, and a systematic description of the structural chemistry of elements and their compounds. The course prepares learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98461-397-4
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

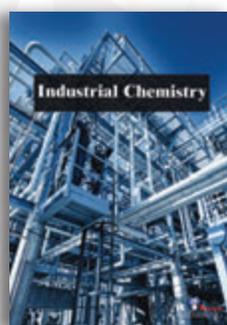

Basic Principles of Organic Chemistry

This interactive course emphasizes organic chemistry and its principles to aid the learner's understanding of organic reactions. The course prepares learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98461-396-7
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

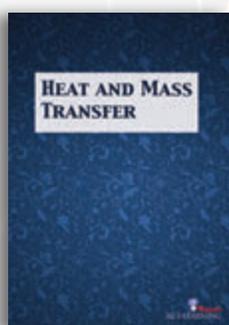

Industrial Chemistry

This comprehensive course offers a valuable overview and myriad details on current chemical processes, products, and practices in industrial perspective. The course prepares learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98461-563-3
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

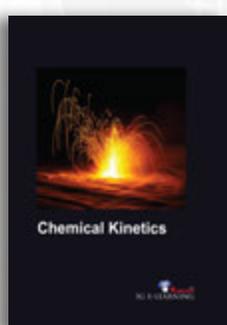

Heat and Mass Transfer

This interactive course provides a clear, coherent, and proper organization of the underlying principles and concepts on Heat and Mass Transfer. The course prepares learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98461-477-3
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

Chemical Kinetics

This comprehensive course provides a balanced presentation of the macroscopic view of empirical kinetics and the microscopic molecular viewpoint of chemical dynamics. This interactive course on chemical kinetics prepares learners with e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-145-9
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

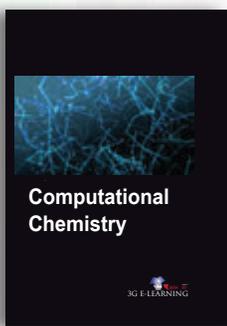

Environmental Biochemistry

For someone with an interest and eye for detail, this course covers the most significant topics in the field of environmental biochemistry. It involves environmental pollution, as well as the response of the body to the various factors like temperature, cold, etc. In this interactive course, the coverage of e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-176-3
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

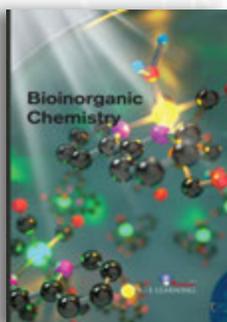

Computational Chemistry

This course discusses the current advances in computational methodologies and their applications. This interactive course presents new developments in the domain of theoretical and computational chemistry. It covers e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-150-3
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

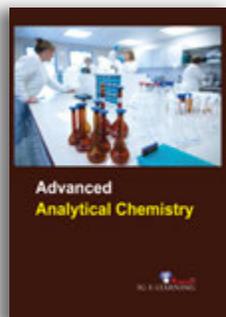

Bioinorganic Chemistry

This interactive course discloses on the essentials of inorganic chemistry and biochemistry. This course provides a clear and concise introduction to the rapidly growing field of bioinorganic chemistry bringing together e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-059-9
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

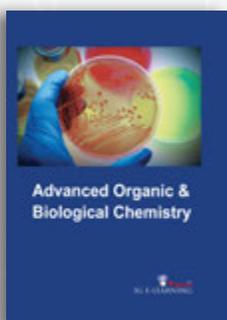

Advanced Analytical Chemistry

This interactive course addresses a range of key issues a comprehensive overview of the present state and recent developments in chemical analysis. Providing e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test in the area of analytical chemistry.

ISBN 978-1-98463-109-1
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

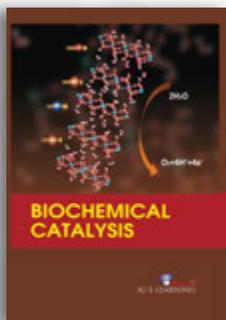

Advanced Organic & Biological Chemistry

This is an interactive course in organic and biological chemistry; it reviews the fundamental concepts for each topic that is discussed. The course provides context and structure for learning the fundamental principles of organic chemistry, enabling the reader to proceed from simple to complex examples in a systematic and logical way. E-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-110-7
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

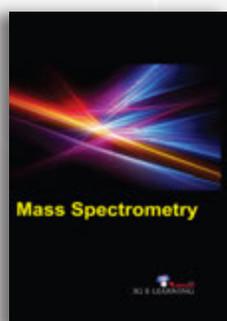

Biochemical Catalysis

The importance of catalysis as a key technology in chemical and process industry, in energy production in environmental processes. This comprehensive course provides updated information on the fundamentals of the field of biocatalysis. This interactive course equips beginners and advanced level learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-124-4
www.3gsmartlibrary.com

Price: \$75 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

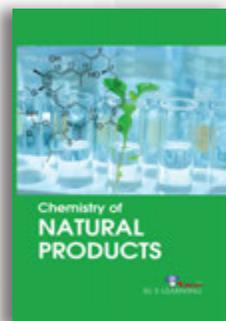

Mass Spectrometry

The past decade has seen huge advances in the types and applications of mass spectrometry in all areas of science. This course offers a balanced mixture of practice-oriented information and theoretical background. It brings e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-239-5
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

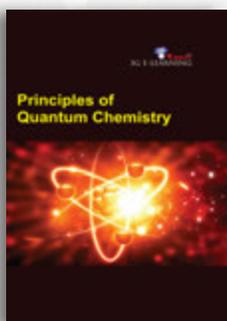

Chemistry of Natural Products

Providing a complete overview of natural products, this work presents a comprehensive coverage of all aspects of the subject, this interactive course discusses a comprehensive account of the essential features of the chemistry of organic compounds of natural origin. The course prepares learners with e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-146-6
www.3gsmartlibrary.com

Price: \$75 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

Principles of Quantum Chemistry

An introduction to quantum chemistry which covers quantum mechanics, atomic structure and molecular electronic structure. The course will examine the factors that determine the availability of mineral nutrients in soil, their uptake and use by plants. The course prepares learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-259-3
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

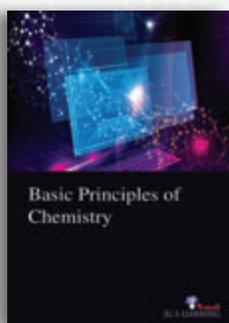

Biochemistry and Technology Engineering

This course is intended to focus on fundamental biochemical technology and to select a group of electives to gain in depth specialization and/or to broaden the knowledge in specific field. In this interactive course, the coverage of e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-332-3
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

Basic Principles of Chemistry

This interactive course will introduce the basic chemistry principles and chemical interactions in the area of considerable complexity. An understanding of this information will allow learners the more advanced topics in future prospect. The course prepares learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

Computer Services Management

Computer Services Management course focuses on the management of computer systems and services within an organization. It covers topics such as IT service delivery, infrastructure management, security, and project management. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686831 Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Data and Digital Communication

This course covers the fundamentals of data communication and digital technologies, including protocols, transmission media, networking, and security. Students will learn how to design and implement digital communication systems and analyze data communication protocols. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

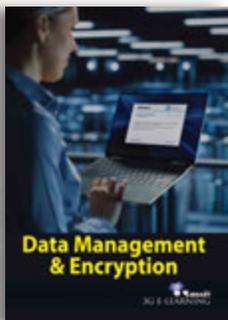

ISBN 9781984686848 Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Data Centre Management

This course focuses on the skills and knowledge needed to effectively manage data centres, including topics such as design, operations, security, and maintenance. Students will learn about the latest technologies and best practices for ensuring high availability, efficiency, and reliability in data centre environments. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

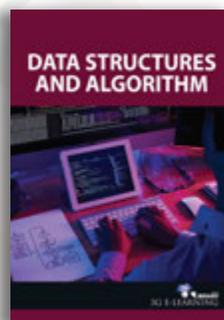

ISBN 9781984686855 Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

Data Management & Encryption

This course covers the principles and best practices of data management, including data collection, storage, retrieval, and analysis. Additionally, it explores encryption techniques and their applications in securing sensitive data. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686862 Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Data Structures and Algorithm

This course teaches students how to design, analyze, and implement efficient algorithms for solving various computational problems. It covers topics such as data structures, sorting and searching algorithms, graph algorithms, dynamic programming, and algorithmic analysis. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

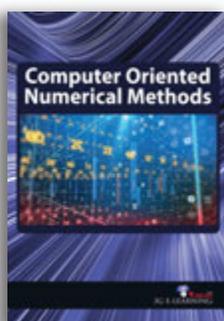

ISBN 9781984686879 Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Computer Repair and Maintenance

This course teaches students how to diagnose, troubleshoot and repair hardware and software issues in a computer system. Additionally, it covers regular maintenance tasks such as updates, backups, and security measures to keep the system running smoothly. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686886 Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Computer Oriented Numerical Methods

This course focuses on the development, implementation, and application of numerical algorithms to solve mathematical problems using computers. The course covers topics such as root-finding methods, interpolation, numerical integration and differentiation, and solutions to linear and nonlinear equations. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686893 Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Computers in Accounting

This course covers the use of computers in accounting, including the principles and practices of computerized accounting systems, software applications, and database management. Students will learn how to input, process, and analyze financial data using various accounting software and tools. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686909
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

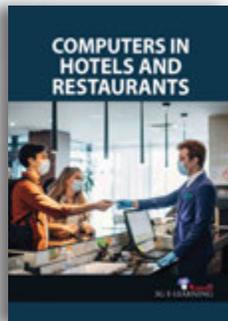

Computers in Banking

This course explores the use of computers and technology in the banking industry. Students will learn about various banking systems, processes, and tools used by financial institutions to manage their operations and serve their customers more efficiently. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686916
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

Computers in Hotels and Restaurants

This course will cover the use of computers in the hospitality industry, specifically in hotels and restaurants. Students will learn about the various computer systems and software used for reservations, front desk operations, point of sale, inventory management, and customer relationship management. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686923
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

Computers in Retail

This course covers the application of computer technology in retail businesses, including point-of-sale systems, inventory management, customer relationship management, and e-commerce platforms. Students will learn about the benefits and challenges of using computer technology in retail and gain practical skills in implementing and managing these systems. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686930

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

Introduction to Optical Fiber Technology

The course provides knowledge of optical fiber waveguide at fundamental level, essentials of an optical fiber communication system and understanding of various components of an optical fiber telecommunication system. The course equips beginners and advanced level learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-414-2
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

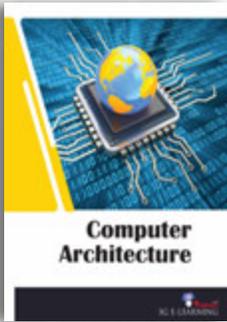

Advance Digital Enhancement

You will learn the basic principles and tools used to process images and videos, and how to apply them in solving practical problems of commercial and scientific interests. This course equips beginners and advanced level learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-415-9
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

Computer Architecture

This course provides students with a solid understanding of fundamental architectural techniques used to build today's high-performance computing. The interactive course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test.

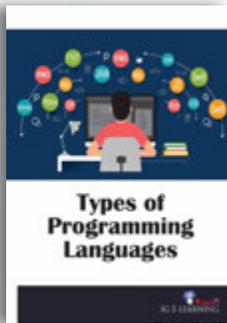

ISBN 978-1-98467-394-7 Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Computer Graphics

The course familiarizes students with fundamental algorithms and data structures that are used in today's interactive graphics systems as well as programming and architecture of high-resolution graphics computers. It brings e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-395-4 Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Types of Programming Languages

The course will touch on a wide variety of languages, both past and present, with an emphasis on modern imperative languages, such as C++ and Java. This course equips beginners and advanced level learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-396-1 Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Introduction to WordPress

Provides an introduction to WordPress and covers installing, administering, and designing a WordPress site. This course equips beginners and advanced level learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

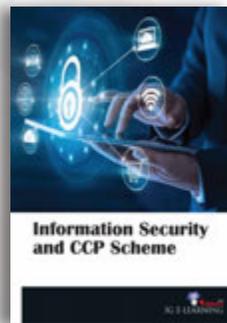

ISBN 978-1-98467-397-8 Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Java Web Services

You will understand the advantages of Web Services and their building blocks. This course provides the coverage of e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test. The interactive course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98467-398-5 Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Information security and CCP Scheme

This interactive course provides an introduction to information security and CCP scheme. In this interactive course, the coverage of e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

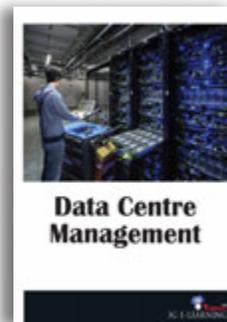

ISBN 978-1-98467-399-2 Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Software Testing and User Experience

The course introduces the novice to a cycle of discovery and evaluation and a set of techniques that meet the user's needs. The interactive course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test.

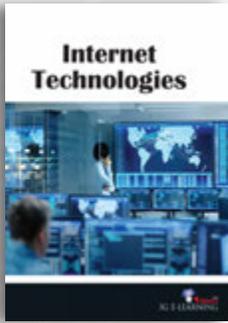

ISBN 978-1-98467-400-5 Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Data Centre Management

Gain unparalleled knowledge, skills and competency to manage the complex technical environments of a data center facility and the ability to optimize its effectiveness by driving efficiencies. This course provides the coverage of e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-401-2 Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Internet Technologies

This course provides students with a study of traditional and emerging Internet technologies. The course covers topics including Internet fundamentals, Internet applications, Internet delivery systems, and Internet client/server computing. The course provides the coverage of e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-402-9
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

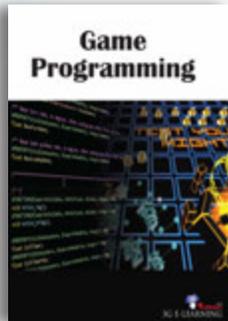

Web Engineering

In this course, topics covered include the application of software engineering principles and techniques to the development, deployment, and maintenance of high quality Web-based systems and applications; markup languages, distributed objects, hypermedia and Web integration; architecture and security issues. This course provides the coverage of e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-403-6
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

Game Programming

This course provides an introduction to game engine scripting, event driven and data driven programming, game engine data structures, basic game related graphics and AI concepts. This course provides the coverage of e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-404-3
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

Python Coding

Includes an overview of the various tools available for writing and running Python, and gets students coding quickly. This course provides the coverage of e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-405-0
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

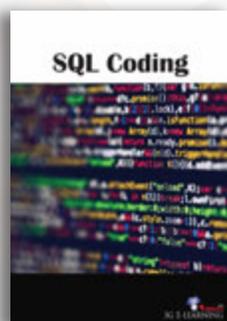

Ruby Coding

In this course, you will gain familiarity with Ruby and basic programming concepts—including variables, loops, control flow, and most importantly, object-oriented programming. This course provides the coverage of e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

SQL Coding

This course provides a solid foundation of the SQL programming language that enables students to build, query and manipulate databases. This course equips beginners and advanced level learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-407-4
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

Introduction to IT & Programming

Introduction to programming basics (what it is and how it works), binary computation, problem-solving methods and algorithm development. Includes procedural and data abstractions, program design, debugging, testing, and documentation. This course equips beginners and advanced level learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-408-1
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

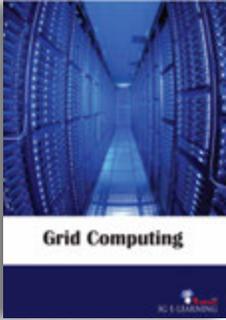

Satellite Communication Systems

The course introduces the students to the basic concept in the field of satellite communication. Enable the students to know how to place a satellite in an orbit and about the earth & space segment. This course equips beginners and advanced level learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-409-8
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

Grid Computing

This interactive course is intended to provide a thorough knowledge about the technology application and tool kits for grid computing. It brings e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

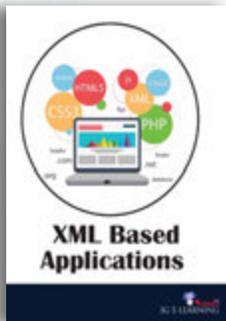

ISBN 978-1-98467-410-4 Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Free and Open Source Software

This interactive course provides an overview of the historical and modern context and operation of free and open source software (FOSS) communities and associated software projects. Students will learn some important FOSS tools and techniques for contributing to projects and how to set up their own FOSS projects. It brings e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

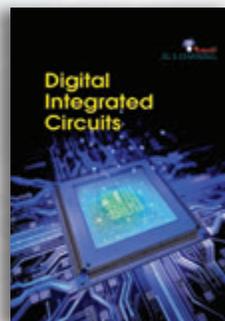

ISBN 978-1-98467-411-1 Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

XML Based Applications

The course gives an ability to plan and implement XML based applications, and to apply functional programming in document conversion. The interactive course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test.

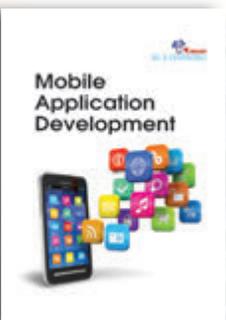

ISBN 978-1-98467-412-8 Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Digital Integrated Circuits

For those with a basic understanding of digital design, this course teaches the essential skills to design digital integrated circuits, explaining the why and how of digital circuit design, using the physics designers need to know, and no more. This course includes e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test.

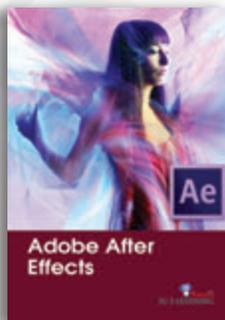

ISBN 978-1-98461-613-5 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Mobile Application Development

Showing how to create consumable web services for mobile devices, this course will guide you through the process of building an application and customizing it with the help of lucid instructions on development, configuration, and administration with a practical, step-by-step approach. This course includes e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test.

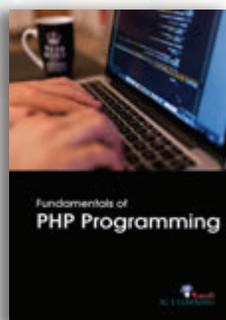

ISBN 978-1-98461-666-1 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Adobe After Effects

Adobe After Effects is a digital visual effects, motion graphics, and compositing application developed by Adobe Systems and used in the post-production process of film making and television production. This course includes all these topics with e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test.

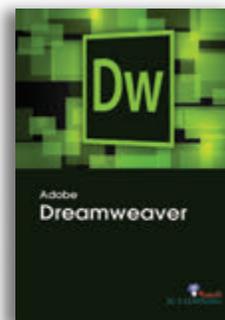

ISBN 978-1-98461-667-8 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Fundamentals of PHP Programming

This interactive course offers an innovative approach that allows anyone with basic SQL and HTML skills to learn PHP object-oriented programming. The course includes all these topics with e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test.

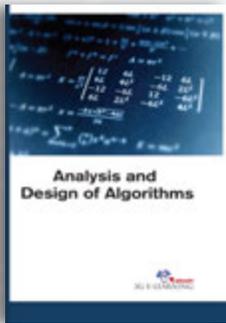

ISBN 978-1-98461-668-5 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Adobe Dreamweaver

This interactive course includes all these topics with e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test, which is the most comprehensive and independent resource for experienced web developers who want to plan, architect, develop, and deploy state-of-the-art websites, applications, and services.

ISBN 978-1-98461-669-2 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Analysis and Design of Algorithms

This interactive course encourages an understanding of the algorithm design process and an appreciation of the role of algorithms in the broader field of computer science. It brings e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-056-8
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

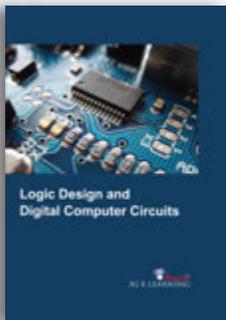

Design and Implementation of Programming Languages

This groundbreaking course is designed for the student or professional interested in programming language design, this new course covers a wide range of programming language paradigms and issues. This course provides the coverage of e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-065-0
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

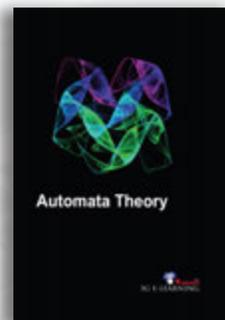

Logic Design and Digital Computer Circuits

This course is intended for the course in digital logic design, at the sophomore or junior level, for electrical engineering, computer engineering and computer science programs. In this interactive course, the coverage of e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-082-7
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

Automata Theory

This course covers considerably the central ideas of automata theory. The course has a simple and exhaustive approach to topics like automata theory, formal languages and theory of computation. E-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-119-0
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

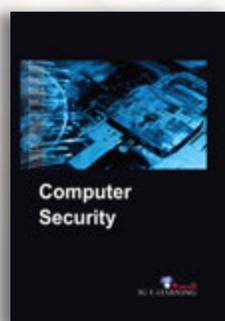

Compiler Design and Construction

This course introduces the readers to compilers and their design challenges and describes in detail the different phases of a compiler. The course prepares learners with e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-148-0
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

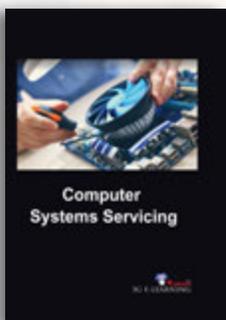

Computer Security

This interactive course includes the basic concepts of computer security and a fundamental understanding of the theory behind the key issues impacting cyber security. This course equips beginners and advanced level learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-152-7
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

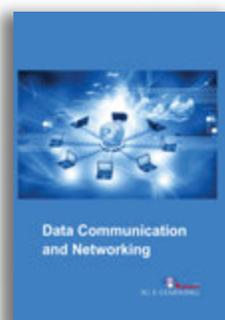

Computer Systems Servicing

This interactive course shows how to repair and upgrade all of your PC's essential components. This course equips beginners and advanced level learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-153-4
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

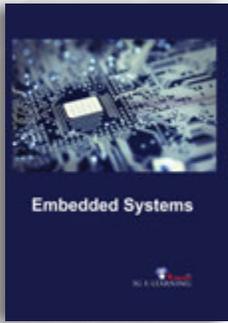

Data Communication and Networking

This course provides an introduction to the field of data communications and computer networks. This course covers information for one or more courses spanning digital communication systems, computer communication and networks, and data communications. This course equips learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-159-6
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

Embedded Systems

This interactive course is designed to meet a felt need for a concise but systematic and rigorous presentation of embedded systems. The course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98463-174-9 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Information Technology

This interactive course provides a comprehensive and straightforward coverage of data processing and information technology. This course is designed to provide students with a working knowledge of computer concepts and essential skills necessary for work and communication in today's society. Students will learn safety, security, and ethical issues in computing and social networking. This course equips learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

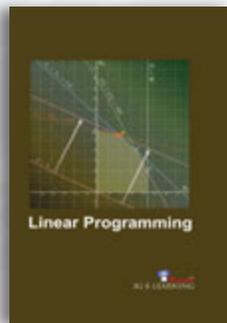

ISBN 978-1-98463-216-6 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Java and Web Design

Introducing students to the concepts of building Web-distributed applications and helps develop the necessary skills through numerous examples, this course takes a step-by-step and detailed approach, coaching you through real-world scenarios. In this interactive course, the coverage of e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

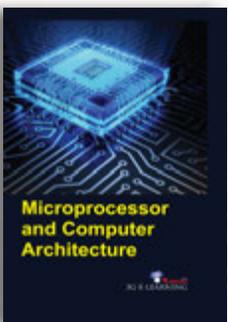

ISBN 978-1-98463-230-2 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Linear Programming

This comprehensive treatment of the fundamental ideas and principles of linear programming covers basic theory, selected applications, network flow problems, and advanced techniques. The course prepares learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

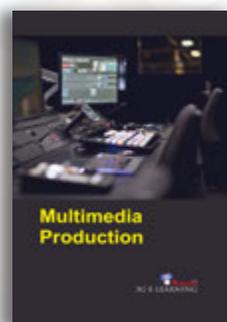

ISBN 978-1-98463-234-0 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Microprocessor and Computer Architecture

This course provides a comprehensive introduction to computer architecture, covering topic from design of simple microprocessors to techniques used in the most advanced supercomputers. The course describes the architecture of microprocessors from simple in-order short pipeline designs to out-of-order superscalars. In this interactive course, the coverage of e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-243-2 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Multimedia Production

This course examines all aspects of this creative field, from concept development to the final stages of postproduction. You will study the key elements of digital media, such as graphics, animation, and digital audio/video; as well as the tools used to create digital media applications/presentations. It brings e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-245-6 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Object-Oriented Programming

This course provides a comprehensive treatment of the main approaches to object-oriented programming, including class-based programming, prototype programming, and actor-like languages. It brings e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-248-7 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Parallel Computing

This course sets out the principles of parallel computing, including coverage of both conventional and neural computers. In this course, you'll learn the fundamentals of parallel programming, from task parallelism to data parallelism. It brings e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-251-7 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Web Programming

The course introduces you to the basic concepts of the World Wide Web, and the principles and tools that are used to develop Web applications. The course will provide an overview of Internet technology and will introduce you to current Web protocols, client side and server side programming, communication and design. It brings e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-279-1
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

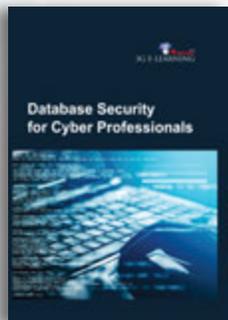

Big Data & Business Intelligence

This course contains a framework for productive discussion and thinking about ethics and Big Data in business environments. This course provides an introduction to the field of business intelligence and big data analytics, which has been defined as the extensive use of data, statistical and quantitative analysis, exploratory and predictive models, and fact based management to drive decisions and actions. The course prepares learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-286-9
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

Database Security for Cyber Professionals

Database security has a great impact on the design of today's information systems. Study of principles and practices of implementing computer database security in modern businesses and industries, including database security principles, database auditing, security implementation and database reliability. In this interactive course, the coverage of e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-291-3
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

Digital Animation

Creating animations that are synthesized on the computer is the focus of this course. Computer generated lighting and backgrounds are used with original characters developed by students. Readers explore the methods animators use to bring images to life and learn about the history of computer animation. This course equips learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-295-1
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

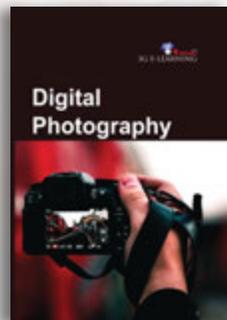

Digital Media

Digital Media is a course designed to educate students on the ever-changing digital world, as well as to provide hands-on experience with industry standard software and equipment. This course carefully examines multiple aspects of digital media from the different perspectives of some of the top scholars in the field. This course equips learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-296-8
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

Digital Photography

This course covers basic concepts and practice of digital photography, including understanding and use of the camera, lenses, and other basic photographic equipment. This course equips learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-297-5
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

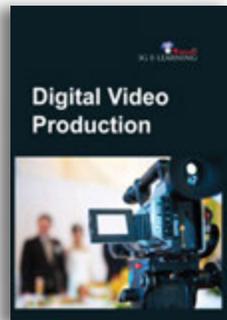

Digital Video Editing

This interactive course will guide you to use using Windows Live Movie Maker, a video creating or editing software application. You will know the theory and practice of various editing styles in order to gain a better understanding of how stories are constructed in the editing room. Through demonstrations and hands-on experience, students learn advanced editing techniques with an in-depth examination of Final Cut. This course equips learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-298-2
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

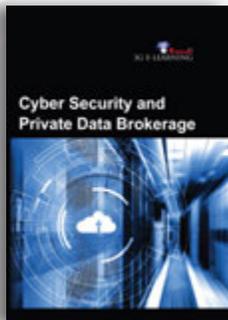

Digital Video Production

Students explore digital editing and camera operation through technical and practical hands-on learning. In this online video production course, you'll learn the basics of planning and shooting videos. This course will teach students the basics of photography, camera functions, video editing, media analysis, and filmmaking. This course equips learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-299-9
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

Cyber security and private data brokerage

Cyber Security refers to a set of techniques used to protect systems, network and data from cyber-attacks. This course is designed to provide an overview and understanding of established cyber security strategy as well as provide students with the opportunity to engage in strategic decision making in the context of cyber security. It brings e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-316-3
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

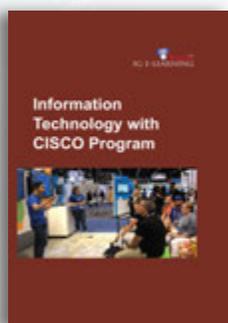

Virtual World Designer

The course is designed for people who are new to VR as a medium. A comprehensive resource on the principles and techniques of virtual world design and programming covers everything from MUDS to MMOs and MMORPGs, explaining how virtual worlds work. In this interactive course, the coverage of e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-321-7
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

Information Technology with CISCO Program

This interactive course introduces the architecture, structure, functions, components, and models of the Internet and computer networks. The principles of IP addressing and fundamentals of Ethernet concepts, media, and operations are also introduced. In this interactive course, the coverage of e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-322-4
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

Big data and AI scientist

The reader will gain insight into some of the areas of application of Big Data in AI. You'll learn how to implement various Artificial Intelligence algorithms for your big data systems and integrate them into your product offerings such as reinforcement learning, and natural language processing. In this interactive course, the coverage of e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-323-1
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

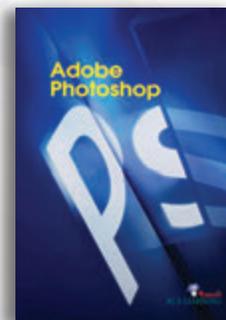

Adobe Flash

At an introductory and advanced level, this course explains the primary applications of the program: graphics, animation, interactive authoring, and audio and video integration. The course includes all these topics with e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-670-8
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

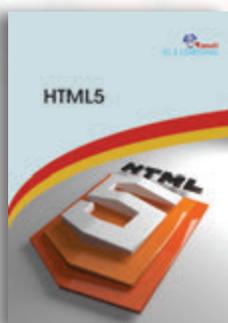

Adobe Photoshop

Whether you're new to Photoshop, or just brushing up your skills, this course is the perfect primer presents an introduction to the basic concepts, tools, techniques, and features of Adobe Photoshop, covering such topics as selecting and editing images, working with layers, adjusting color, sharpening, applying masks. The course includes e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-671-5
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

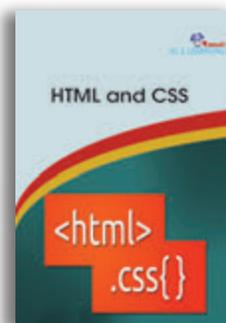

HTML5

A comprehensive course to HTML5 covering such topics as markup, Web forms, audio and video, Canvas, CSS3, data storage, offline applications, and JavaScript. The course includes e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-672-2
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

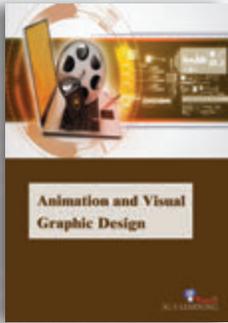

HTML and CSS

Using the latest standards, best practices, and real-world examples, this course offers you with a thorough grounding in the basics and also includes advanced techniques. The course includes e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-673-9
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

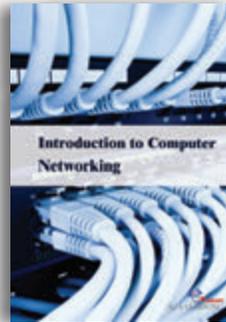

Animation and Visual Graphic Design

Inspirational and informative, this course is intended for learners who are new to the incredible world of animation both independently and commercially. The course prepares learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98461-398-1
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

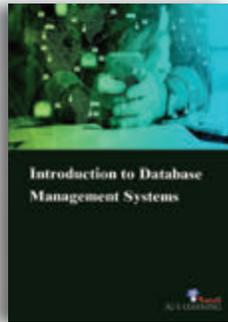

Introduction to Computer Networking

This course gives a broad look at both fundamental networking technology and new areas that support it and use it. It is a concise introduction to the most prominent, recent technological topics in computer networking. The course prepares learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98461-399-8
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

Introduction to Database Management Systems

Primarily designed for the learners of computer science, information technology, software engineering and management, this course, continues to provide an excellent coverage of the basic concepts. The course prepares learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98461-400-1
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

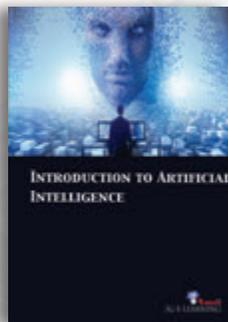

Computer Hardware and Software Engineering

Practice problems enable learners to use the principles set forth in the course to design and implement their own integrated solutions. In order to analyze and design digital systems, one requires a solid foundation in hardware concepts. The course prepares learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98461-436-0
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

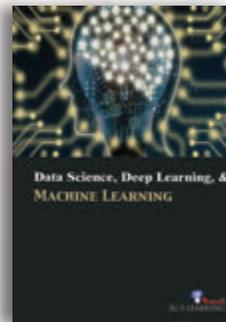

Introduction to Artificial Intelligence

This comprehensive course acquaints the learners with the important aspects of artificial intelligence (AI) and intelligent systems and guides them towards a better understanding of the subject. The course prepares learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98461-443-8
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

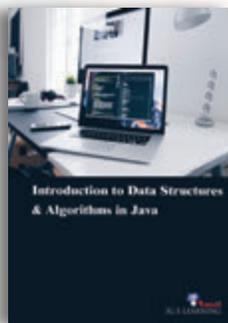

Data Science, Deep Learning, & Machine Learning

This interactive course covers the fundamentals of machine learning and deep learning in a concise and dynamic manner. The course prepares learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98461-444-5
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

Introduction to Data Structures & Algorithms in Java

This new edition provides a comprehensive coverage of fundamental data structures, making it ideal for use in computer science. The course prepares learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98461-445-2
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

Computer Aided Design

Computer-aided design (CAD) involves creating computer models defined by geometrical parameters. This interactive course covers how to use CAD software to increase the productivity of the designer, improve the quality of design, improve communications through documentation, and to create a database for manufacturing. This course brings e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-452-0
www.3gsmartlibrary.com

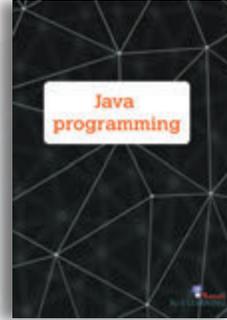

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

Computer Service and Repair

This course teaches the practices and principles needed to build, upgrade, and troubleshoot PCs. This course prepares learners with e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test.

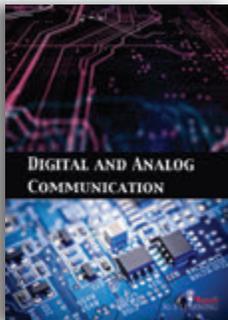

ISBN 978-1-98461-453-7 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Java Programming

This comprehensive course takes an efficient route through the Java landscape, covering all of the core topics that a Java developer needs. The course prepares learners with e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test.

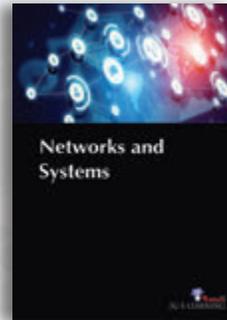

ISBN 978-1-98461-460-5 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Digital and Analog Communication

The course prepares learners with e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test, providing a detailed, unified treatment of theoretical and practical aspects of digital and analog communication systems, with emphasis on digital communication systems.

ISBN 978-1-98461-496-4 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Networks and Systems

Lucid presentation of the theoretical aspects of different types of circuits and their applications in circuit analysis, the course prepares learners with e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test.

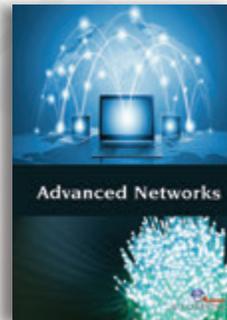

ISBN 978-1-98461-505-3 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Advance Digital Enhancement

The course prepares learners with e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test. Various methods substantially assist the data converter designer in enhancing the expected performances. In this course learners study approaches of enabling error measurement, thus allowing for their correction or calibration in the analog or digital domain.

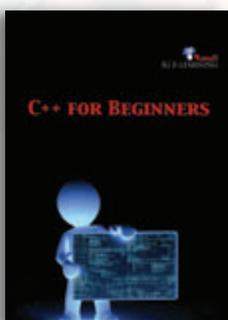

ISBN 978-1-98461-512-1 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Advanced Networks

More critically, the course gives multi-faceted topics, carefully analyzing and distinguishing the characteristics of each technology and spanning both technical and economic merits. The course prepares learners with e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-514-5 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

C++ for Beginners

This course will be very useful for learners who want to understand and feel the depth of the powerful features that this "classic" programming language supports. The course prepares learners with e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test.

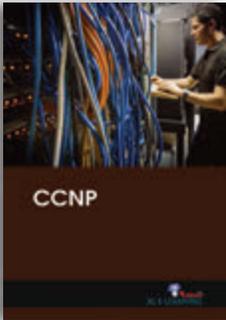

ISBN 978-1-98461-523-7 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

CAD & CAM

This course examine interactive computer graphics and its use in designing industrial robots, computer control of manufacturing processes, computer-integrated production control, and automated inspections. The course prepares learners with e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-524-4 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

CCNP

This course provides concise summaries of key points for each topic and should provide a useful review guide on experience of CCNP Troubleshooting topics. The course prepares learners with e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-525-1
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

CEH (Certified Ethical Hacking)

With this comprehensive course, learners will know the latest tools, techniques CEH (Certified Ethical Hacking). The course prepares learners with e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-526-8
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

Client Server Architecture

This course covers in-depth considerations for architecting portable client-server applications, and it incorporates topics such as distributed computing, downsizing, implementation, scalability, and software layering; preparing learners with e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-528-2
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

Client Server Computing

This course explains how products and services from a wide variety of suppliers can be integrated to produce a distributed computing system. The course prepares learners with e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-529-9
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

Cloud Computing

This course is intended to capture the state-of-the-art in Cloud Computing technologies and applications. Explains what cloud computing is and how this new technology is being used to make lives easier. The course prepares learners with e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-530-5

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

Computer Networks

This course provides a complete coverage of the topics of utmost importance to networking professionals and students, including P2P, wireless, network security, and network applications. The course prepares learners with e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-532-9
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

Computer Organization

This course provides the important attributes that includes pertinent hardware, software, and system aspects, providing learners with e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-533-6
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

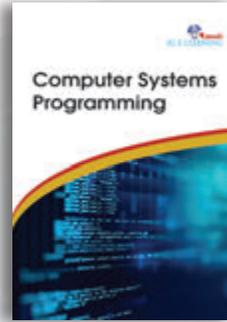

Computer Programming

This course introduces learners in a natural and systematic way to the world of computer programming. It provides learners e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-534-3
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

Computer Systems Programming

Designed from the programmer's perspective, this interactive course strives to show learners how understanding basic elements of computer systems and executing real practice can lead them to create better programs. It provides learners e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-535-0
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

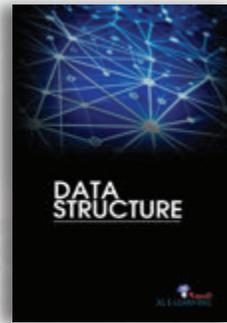

Data Recovery

This course covers all areas of data recovery, including how to restore deleted files and directories, what to do when the disk will not boot, how to recover lost or damaged files. It provides learners e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-538-1
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

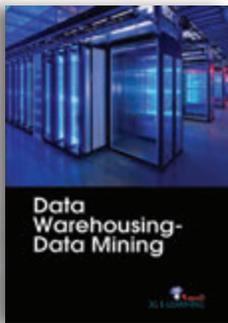

Data Structure

This course is intended for comprehensive treatment focusing on the creation of efficient data structures and algorithms, explaining how to select or design the data structure best suited to specific problems. It provides learners e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-539-8
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

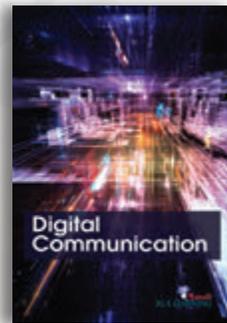

Data Warehousing- Data Mining

This interactive course covers the fundamentals of data warehousing and technologies specifically for the learners who wants to get into the field. It provides learners e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-540-4
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

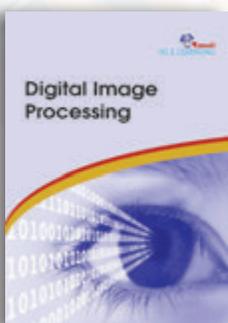

Digital Communication

This is a concise presentation of the concepts underlying the design of digital communication systems, with e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-542-8
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

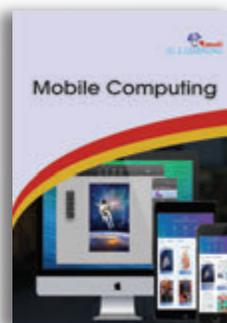

Digital Image Processing

This interactive course provides a clear, comprehensive and up-to-date introduction to Digital Image Processing in a pragmatic style. It provides learners e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-543-5
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

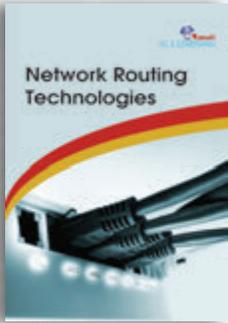

Mobile Computing

With a solid background in the field, this comprehensive course covers all the technical aspects of computing in mobile environment. It presents a comprehensive coverage of the technical as well as business/management aspects of mobile computing and wireless communications. It provides learners e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-571-8
www.3gsmartlibrary.com

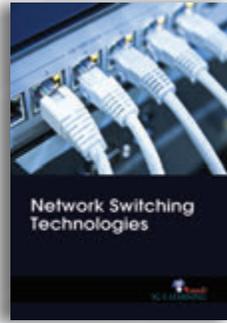

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

Network Routing Technologies

Nowadays, IP is also becoming the single technology used to support the different kinds of traffic present in a number of enterprise internetworks. This interactive course covers the basics of routing technology and protocols for IP networks, together with details of the different protocols and comparative assessments. It provides learners e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test.

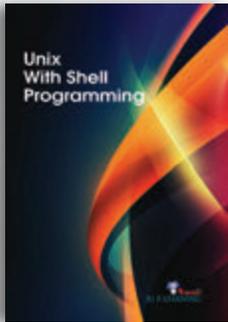

ISBN 978-1-98461-572-5 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Network Switching Technologies

Switching is the control or routing of signals in either physical or virtual circuit form to transmit data between specific points in a network. Providing details on network switching concepts and technologies, this course equips learners' e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-573-2 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Unix With Shell Programming

This course details on how to develop programs in the UNIX operating system, discussing how to perform tasks including building, debugging, and understanding how shell scripts work. This course equips learners' e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-575-6 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Visual Basic Programming

Covering both fundamentals and advanced database programming techniques Introduces three popular database systems with practical examples, this course is a programmer's complete guide to Visual Basic .NET, including e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-576-3 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

WAN Technologies

This interactive course is designed to better understand a WAN technology in a currently installed network; you need the ability to compare one WAN technology to another. This course includes e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test.

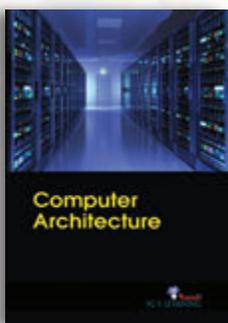

ISBN 978-1-98461-578-7 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Operating Systems

This comprehensive course provides the readers with the basic understanding of the theoretical and practical aspects of operating systems. This course includes e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test.

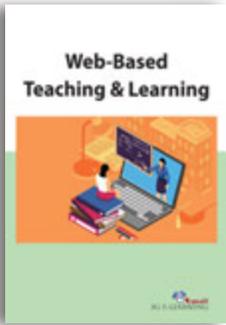

ISBN 978-1-98461-611-1 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

Web-Based Teaching & Learning

This course teaches the essentials of working with the most important web technologies. It addresses many issues, trends, opportunities and problems facing colleges and universities in the effective utilization and management of Web-based learning and teaching. It brings e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

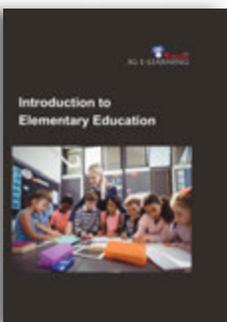

ISBN 978-1-98463-280-7 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Introduction to Pre-school Education

Preschool is an important stage which lays the foundation for life-long learning and all round development of the child. It is also the starting point of formal education. This course aims to help the learner to provide good quality pre-school education to children. In this interactive course, the coverage of e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

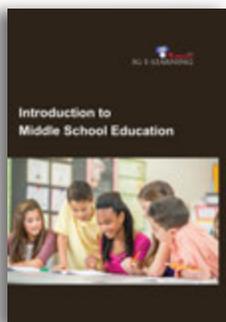

ISBN 978-1-98463-326-2 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Introduction to Elementary Education

The course offers the foundations of early childhood education along with pioneers in the special education field as the base for child development. They prepare teachers with a broad knowledge of the subject areas and the latter includes principles for child development, education practice, a study of school pedagogy and the role of a teacher in the grooming of students. In this interactive course, the coverage of e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

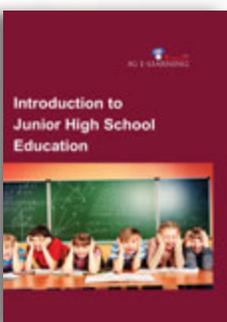

ISBN 978-1-98463-327-9 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Introduction to Middle School Education

The course is designed to help students develop learning skills in areas such as collaboration, critical thinking, communication, and creativity. The purpose of secondary education can be to give common knowledge, to prepare for either higher education or vocational education, or to train directly for a profession. In this interactive course, the coverage of e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

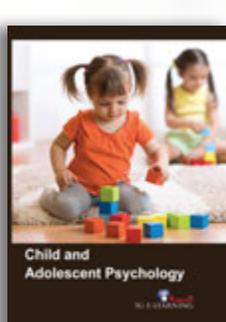

ISBN 978-1-98463-328-6 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

Civil Engineering Hydraulics

Civil Engineering Hydraulics course covers the principles of fluid mechanics and their application to the design and analysis of hydraulic systems, including pipelines, channels, pumps, and water treatment plants. Students will learn about the properties of fluids, flow measurement, energy and momentum principles, and the design of hydraulic structures. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984687159
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

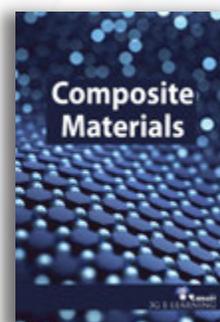

Commercial and Industrial Wiring

This course covers the principles, practices, and regulations of commercial and industrial wiring, including installation, maintenance, and troubleshooting of electrical systems. Students will learn to interpret wiring diagrams, use various tools and equipment, and apply safety measures to ensure compliance with industry standards. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984687166
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

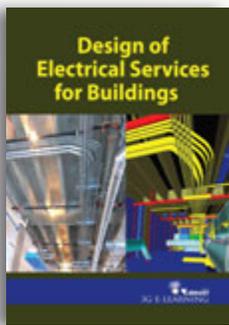

Composite Materials

Composite materials are a type of engineered material made from two or more constituent materials with different physical and chemical properties. This course will cover the principles, processing techniques, and applications of composite materials in various industries, such as aerospace, automotive, and construction. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984687173
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

Design of Electrical Services for Buildings

This course focuses on the design and implementation of electrical systems for buildings, including power distribution, lighting, and communication systems. Students will learn to use industry-standard software and codes to design and analyze electrical systems, as well as understand the practical considerations of installation and maintenance. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984687180
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

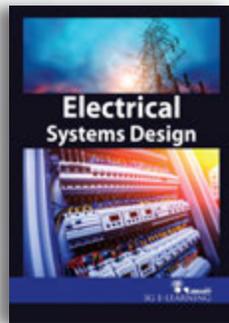

Digital Circuit & Logic Design

Digital Circuit and Logic Design is a foundational course in computer engineering that covers the design and analysis of digital circuits using logic gates and Boolean algebra. Students will learn about combinational and sequential circuits, timing analysis, and state machines. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984687197
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

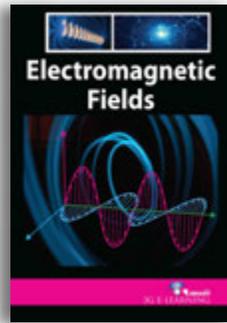

Electrical Systems Design

Electrical Systems Design focuses on the principles, methods, and tools used in the design of electrical systems. Students learn about electrical safety, circuit analysis, power systems, control systems, and other essential topics to create efficient and effective electrical systems. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984687203
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

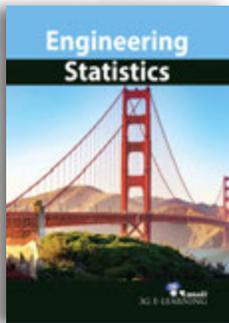

Electromagnetic Fields

This course deals with the behavior of electric and magnetic fields, their interactions, and their propagation through space. Topics covered may include Maxwell's equations, electromagnetic waves, radiation, and applications in technology and engineering. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984687210
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

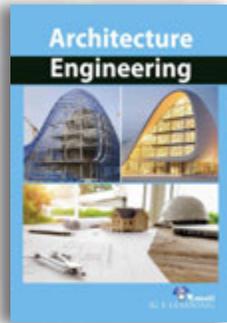

Engineering Statistics

Engineering Statistics is a branch of statistics that focuses on the application of statistical methods and techniques to solve problems in various engineering fields. This course covers topics such as probability theory, hypothesis testing, experimental design, regression analysis, and quality control. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984687227
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

Architecture Engineering

Architecture engineering is the study of designing and planning the construction of buildings and other physical structures. This course involves understanding structural principles, building materials, and the integration of infrastructure systems such as electrical, plumbing, and HVAC. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984687234
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

Fermentation Technology

Fermentation Technology course focuses on the biological and biochemical processes used in the production of fermented food and beverages. Students will learn about the principles and techniques involved in fermentation, as well as the industrial applications of these processes. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984687241
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

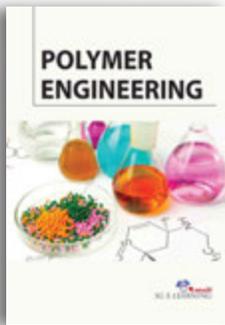

Green Technologies

This course will explore various sustainable and environmentally-friendly technologies, commonly known as "green technologies," and their applications in different sectors. Students will learn about the principles, design, and implementation of these technologies and their potential impact on the environment and society. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984687258
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

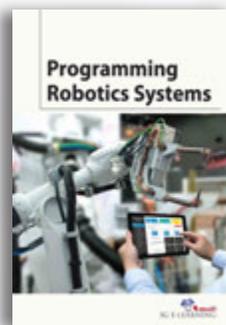

Polymer Engineering

Polymer Engineering is the study of polymers and their processing methods to design and manufacture a wide range of products. This course includes the application of principles of chemistry, physics, and engineering to develop new materials and improve existing ones. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984687265
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

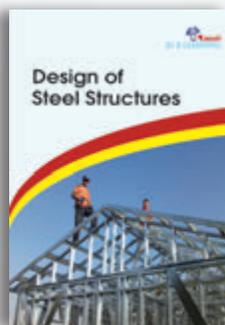

Programming Robotics Systems

This course teaches students how to program robots using various programming languages and platforms. It covers topics such as robot kinematics, control, perception, and motion planning. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984687272
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

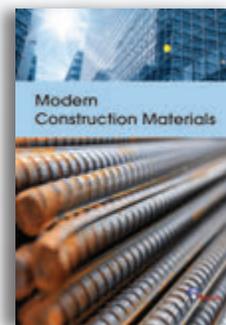

Design of Steel Structures

The behaviour of steel structures and the criteria used in their design are set out in detail in this course. The course will prove useful for those unfamiliar with the limit states design of steel structures. This interactive course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-631-9
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

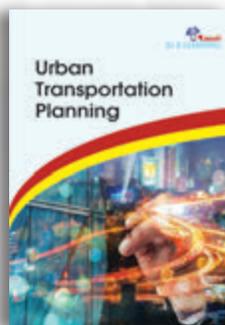

Modern Construction Materials

Covering recent developments in construction materials, this course provides comprehensive and detailed analysis of the sustainability issues associated with these materials. This interactive course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-632-6
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

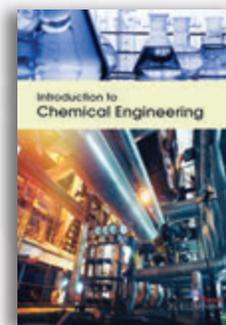

Urban Transportation Planning

Providing a comprehensive coverage of urban transportation planning and evaluation, this interactive course offers solutions for creating sustainable urban transportation. The interactive course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-633-3
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

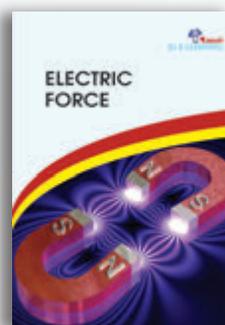

Introduction to Chemical Engineering

Comprehensive and detailed, this course covers the fundamentals of chemical engineering with an emphasis on valid and practical approximations in modeling. This interactive course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-619-7
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

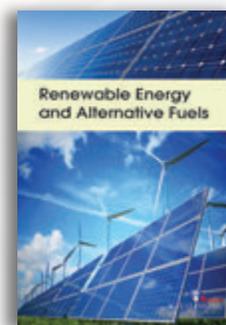

Electric Force

In this course you will find the physics behind the electric force. You will study how to calculate the force on a charged particle resulting from one or more additional charge. This interactive course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-620-3
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

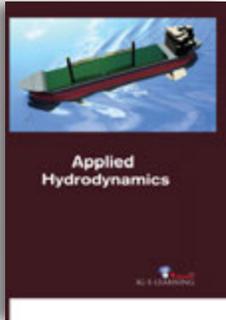

Renewable Energy and Alternative Fuels

This comprehensive course covers on renewable energy sources, technologies and their applications—a subject which is becoming increasingly important worldwide. This interactive course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-624-1
www.3gsmartlibrary.com

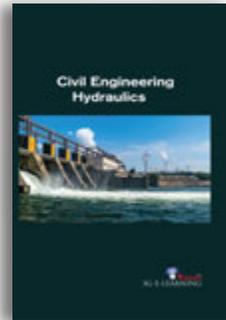

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

Applied Hydrodynamics

This interactive course explores on the vital components of applied hydrodynamics. This course deals with the motion of fluids and the forces acting on solid bodies immersed in fluids and in motion relative to them. It brings e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

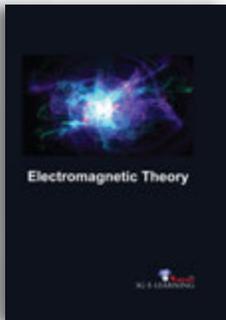

ISBN 978-1-98463-057-5 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Civil Engineering Hydraulics

This groundbreaking course provides a succinct introduction to the theory of civil engineering hydraulics. It enables students to test their understanding of the theory and of the methods of analysis and design. This course provides the coverage of e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

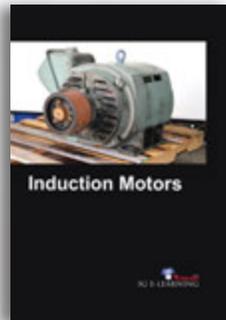

ISBN 978-1-98463-064-3 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Electromagnetic Theory

This innovative course places an emphasis the physical and mathematical aspects of the electromagnetic theory in a very simple manner. This course provides the coverage of e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

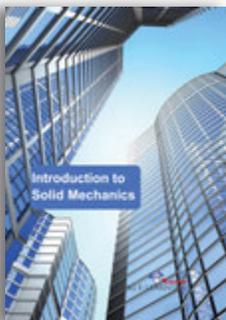

ISBN 978-1-98463-066-7 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Induction Motors

The information presented in this course covers the applications and structural properties of induction motors (IMs), fault detection and diagnostics, and control strategies. In this interactive course, the coverage of e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test that deals with the study of induction motors.

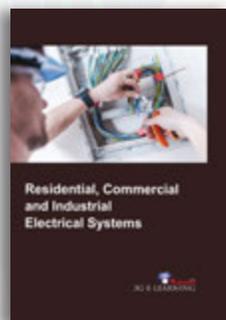

ISBN 978-1-98463-077-3 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Introduction to Solid Mechanics

This course is intended as an introductory course on Solid Mechanics. In this interactive course, the coverage of e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test that deals with the study of consumers or individuals, groups, or organizations and all the activities associated with the purchase, use and disposal of goods and services, including the consumer's emotional, mental and behavioral responses.

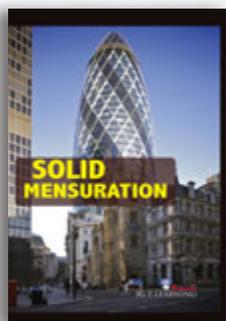

ISBN 978-1-98463-081-0 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Residential, Commercial and Industrial Electrical Systems

This course discusses electrical theory as it applies to residential and industrial equipment. It covers how the basic systems work. In this interactive course, basic emphasis is on the fundamentals of energy-handling electric circuits, power electronic circuits such as inverters, and electromechanical apparatus. E-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-089-6 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Solid Mensuration

This comprehensive course offers covers topics on mensuration of plane figures in space, and their applications. It also deals with determination of volumes and surface areas of solid figures such as prisms, cylinders, pyramids, cones, frustums, prisms, spheres and solids of revolution. The course prepares learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

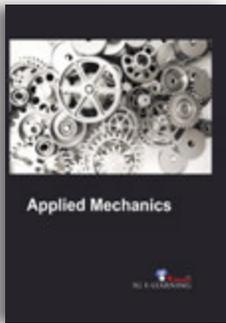

ISBN 978-1-98463-094-0 Price: \$75 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Biomedical Instrumentation & Measurement

In this interactive course, the emphasis is on the principles of biomedical instrumentation and measurements employed in the medical industry. It offers valuable information on common and specialty medical equipment, both diagnostic and therapeutic. E-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

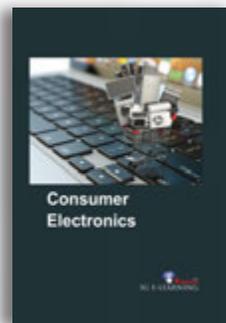

ISBN 978-1-98463-105-3 Price: \$75 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Applied Mechanics

This interactive course is dedicated to the application of mechanics to solve practical design, analysis, and manufacturing problems. E-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

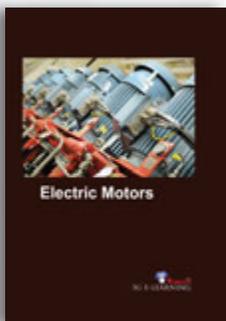

ISBN 978-1-98463-115-2 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Consumer Electronics

This interactive course covers the theory, applications and maintenance of various audio/video systems, telecommunication systems and electronic home/office appliances. This course equips beginners and advanced level learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

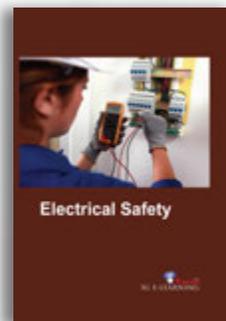

ISBN 978-1-98463-154-1 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Electric Motors

This interactive course equips learners with drive techniques that will help them develop motor drive system for their applications. The course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98463-171-8 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Electrical Safety

This interactive discusses the current issues in electrical safety, which is accompanied by series of practical applications that can be used by practicing professionals dealing with electrical projects. The course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test.

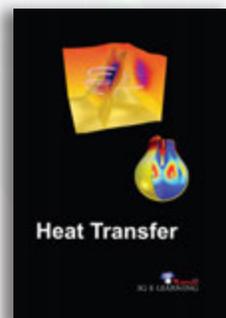

ISBN 978-1-98463-173-2 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Geotechnical Engineering

Providing a solid grounding in the mechanics of soils and soil-structure interaction, this course covers all of the major geotechnical topics in the simplest possible way adopting a hands-on approach with a very strong practical bias. The course prepares learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-198-5 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Heat Transfer

Covering the basic mechanisms for transfer of heat, this course gives a deeper and more comprehensive view of the subject. This course equips learners with the tools to model, analyze and solve a wide range of engineering applications involving heat transfer. This course equips learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

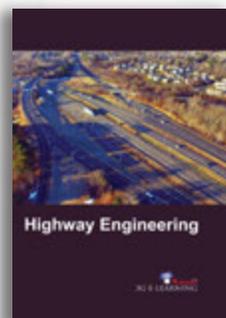

ISBN 978-1-98463-204-3 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Heat, Electricity, and Magnetism

This interactive course what heat and electricity is and how it is generated, stored, and used; explains what magnets are and how magnetism works; and discusses how electricity can be used to create magnets. This course equips learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

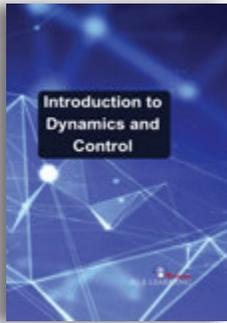

ISBN 978-1-98463-205-0 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Highway Engineering

This course assists helps learners maximize effectiveness in all facets of highway engineering including planning, design, operations, safety, and geotechnical engineering. This course equips learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

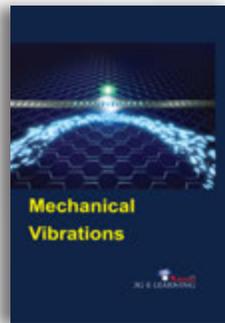

ISBN 978-1-98463-206-7 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Introduction to Dynamics and Control

An interactive course covering dynamics and controls of engineering systems, with particular focus on mechanical engineering systems. Basic models and concepts of machine dynamics and motion control are presented in the order of the principal steps of machine design. This course equips learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

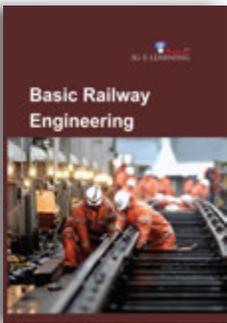

ISBN 978-1-98463-220-3 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Mechanical Vibrations

This interactive course enhances your knowledge and skills in equations of motion, free and forced vibrations with and without damping effect, vibration isolation and suppression, natural frequencies and time response for systems with single or multiple degree of freedom. In this interactive course, the coverage of e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

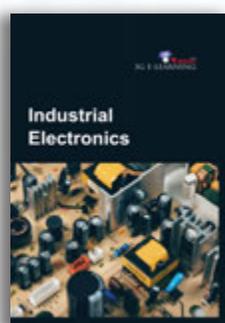

ISBN 978-1-98463-241-8 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Basic Railway Engineering

Railway transport is experiencing a worldwide renaissance. It offers substantial economic benefits, energy efficiency, and environmental and safety benefits. This engineering course attempts to tackle those issues by introducing you to a holistic approach to railway systems engineering. This course equips learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

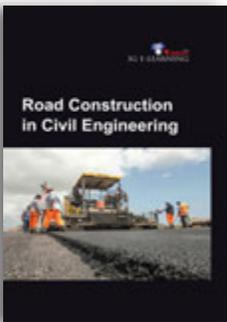

ISBN 978-1-98463-303-3 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Industrial Electronics

This interactive course covers the essential areas that form the basis for the field. This course presents the basic knowledge that can be applied in industry. This course is designed to help prepare students for entry-level jobs in the electricity and electronics fields. It brings e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-308-8 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Road Construction in Civil Engineering

This course provides information on the necessary planning and management of Road Construction, together with an overview of the resources and explores the planning, design, construction, and characteristics of highways and city streets, including layout, traffic requirements, safety and control. It brings e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

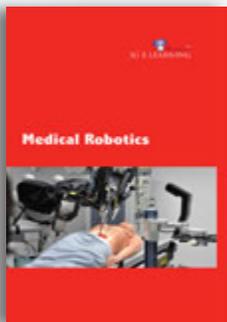

ISBN 978-1-98463-309-5 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Robot Manufacturer and Service Management

This course takes a look at the entire field of robotics—from design and production to deployment, operation, and maintenance. This course provides a general introduction to robot technology with an emphasis on robot mechanisms and kinematics. It brings e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-313-2 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Medical Robotics

This course provides a thorough background to the emerging field of medical robotics. Medical robots save lives every day, and they're sure to save more as their technology advances. This course shows the science and science strategies behind robots that are used for scientific and medical reasons. In this interactive course, the coverage of e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

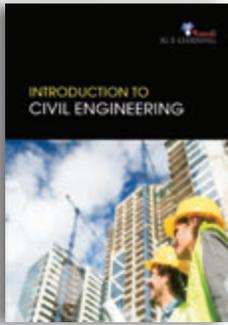

ISBN 978-1-98463-335-4 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Chemical Technology

Designed to apprise the learners of chemical engineering with a variety of different processes of chemical technologies, this course deals with chemical technology and describes subjects dealing with apparatus, unit operations, and chemical economics. The interactive course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-636-4 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

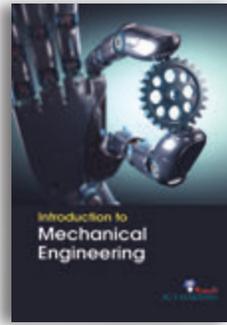

Introduction to Civil Engineering

This interactive course takes a tour on the importance of civil engineering in the history of civilization, explores problems civil engineers face each day, and outlines some modern accomplishments in the field, providing e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-401-8
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

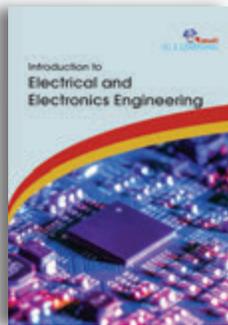

Introduction to Mechanical Engineering

Mechanical engineers contributed to the design, propulsion, thermal control, and other aspects of these robotic vehicles. With a focus on electro-mechanical devices and systems in a variety of fields, this comprehensive course brings you coverage of the full range of mechanical devices used today. The course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-402-5
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

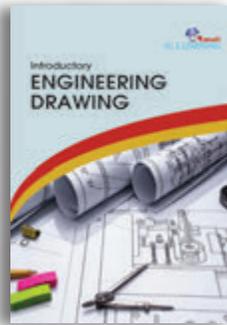

Introduction to Electrical and Electronics Engineering

Presenting a detailed exposition of the basic facets of electrical and electronics engineering, the interactive course offers rich learning experience with e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-403-2
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

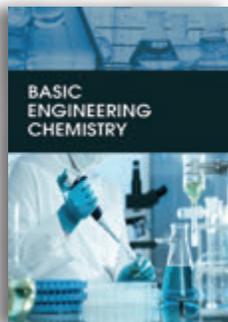

Introductory Engineering Drawing

Based on time-proven techniques, this course covers the essentials of engineering drawing to give complete information about the shape and size of the objects like machine parts, buildings, etc. The course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-440-7
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

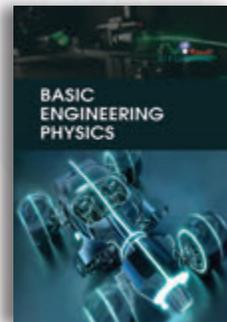

Basic Engineering Chemistry

This interactive course deals with the basic principles of chemistry while others are focused on its applied aspects, providing the correct interphase between the principles of chemistry and engineering. The course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-450-6
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

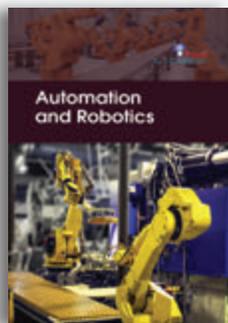

Basic Engineering Physics

This course is intended to offer a comprehensive and effective teaching/learning tool for the benefit of the students of Engineering Physics. The course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-451-3
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

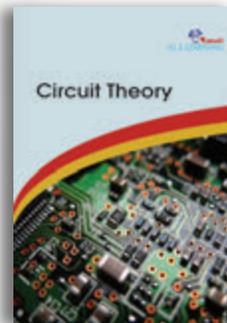

Automation and Robotics

In order to enable a better understanding of the key concepts of automation, this course develops the fundamental aspects of the field while also proposing numerous concrete exercises and their solutions. The course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-470-4
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

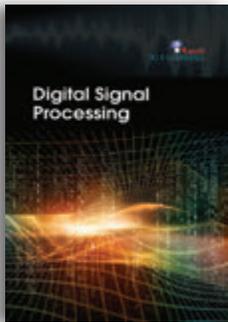

Circuit Theory

This interactive course is designed to meet a felt need for a concise but systematic and rigorous presentation of Circuit Theory which forms the core of electrical engineering. The course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-471-1
www.3gsmartlibrary.com

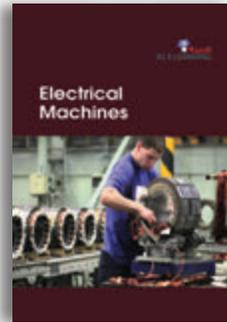

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

Digital Signal Processing

This interactive course gives a thorough understanding of the principles and applications of DSP with a minimum of mathematics, and provides the learner with an introduction to DSP applications in telecoms. The course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test.

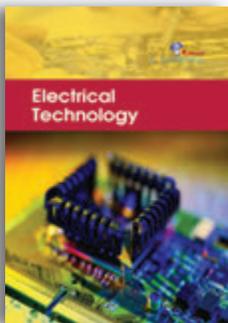

ISBN 978-1-98461-472-8 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Electrical Machines

This interactive course equips learner's basic functionality and the role of electrical machines in their typical applications. The course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test.

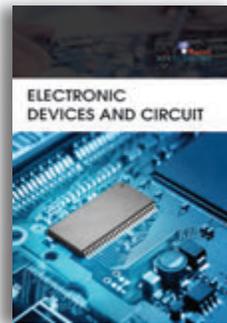

ISBN 978-1-98461-473-5 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Electrical Technology

The course offers rich learning experience with e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test, covering electric machines including AC and DC machines, various electrical instruments and measurements. The concepts are clearly explained and are supplemented with relevant examples in every phase.

ISBN 978-1-98461-474-2 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Electronic Devices and Circuit

The course offers rich learning experience with e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test, dealing with fundamentals, operational aspects and applications of discrete semiconductor devices such as diodes, bipolar transistors, field effect transistors, unijunction transistors, and thyristors.

ISBN 978-1-98461-475-9 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Industrial Engineering

Unrivaled coverage of a broad spectrum of industrial engineering concepts and applications; The course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test. This book provides discussions and the exchange of information on principles, strategies, models, techniques, methodologies and applications of industrial engineering.

ISBN 978-1-98461-479-7 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Motor Vehicle Technician

This interactive course offers rich learning experience with e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test, with an overview of calculations and scientific principles relevant to motor vehicle maintenance and repair.

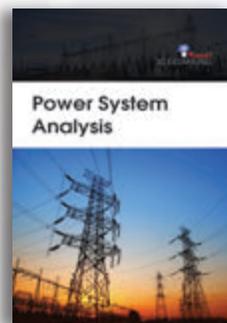

ISBN 978-1-98461-481-0 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Port & Terminal Management

The shipping industry has myriad complexities and this interactive course provides learners wide-ranging and up-to-date understanding required to thrive in today's highly competitive and evolving environment. The course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-482-7 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Power System Analysis

Including comprehensive coverage of the analysis of power systems, this interactive course provides the incorporation of AC/DC converters and DC transmission in power system analysis; with e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-483-4 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

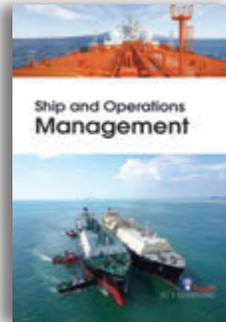

Reinforced Cement Concrete Design

This interactive course covers the applications of design concepts and provides a wealth of state-of-the-art information on design aspects of wide variety of reinforced concrete structures. The course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-485-8
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

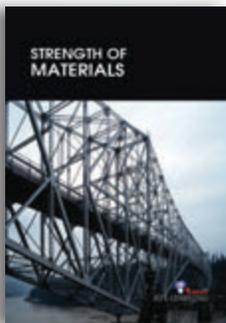

Ship and Operations Management

This interactive course focuses on the management of ship operations, including registration, insurance costs, cargoes, crewing, bunkering, voyage estimation and legal issues. The course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-487-2
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

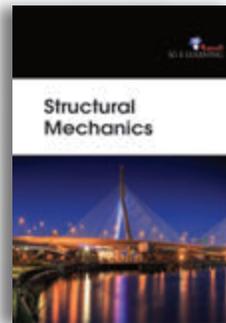

Strength of Materials

This innovative course deals with the various topics in the subject of Strength of Materials exhaustively. The course is highly recommended for learners interested in the processes and methodologies in determining the strength of materials, giving rich learning experience with e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-489-6
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

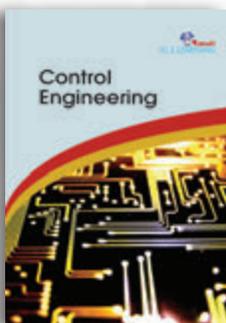

Structural Mechanics

Providing a solid introduction to basic continuum mechanics, emphasizing variational formulations and numeric computation, this interactive course offers a complete discussion of numerical method techniques used in the study of structural mechanics. The course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-490-2
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

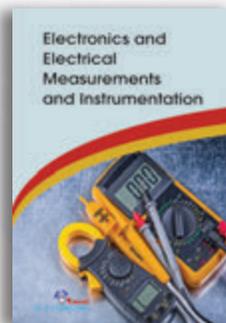

Control Engineering

Providing a comprehensive introduction to the subject of control engineering, the course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test. Illustrates the analysis, behavior, and design of linear control systems using classical, modern, and advanced control techniques.

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

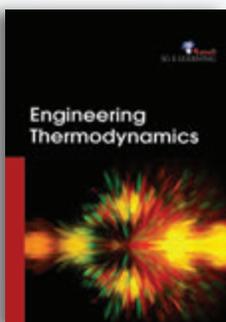

Electronics and Electrical Measurements and Instrumentation

This interactive course is addressed to anyone with some knowledge of electricity, electronics, and circuit theory who wishes to become familiar with the great variety of electronic instruments and measuring systems available today and with the kinds of electronics instrumentation. The course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-497-1
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

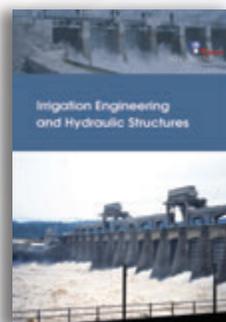

Engineering Thermodynamics

This leading course in the field maintains its engaging, readable style while presenting a broader range of applications that motivate learners to learn the core thermodynamics concepts, offering rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-498-8
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

Irrigation Engineering and Hydraulic Structures

Dealing with the fundamental and general aspects of irrigation and water resources engineering, this interactive course includes recent developments in hydraulic engineering related to irrigation and water. The course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-503-9
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

Materials Science

This accessible course provides learners with clear and concise discussions of key concepts while also incorporating familiar terminology. The course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test.

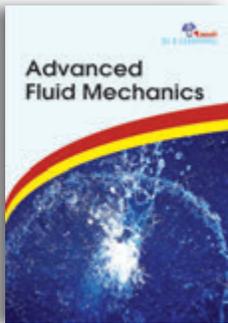

ISBN 978-1-98461-504-6 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Adaptive Control

This course introduces theoretical and practical aspects of adaptive control. It offers an excellent perspective on techniques as well as an active knowledge of key approaches. The course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test.

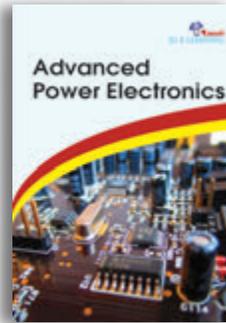

ISBN 978-1-98461-511-4 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Advanced Fluid Mechanics

The course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test, presenting a thorough and comprehensive treatment of both the basic as well as the more advanced concepts in fluid mechanics.

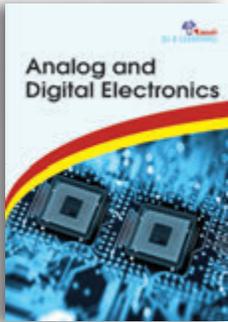

ISBN 978-1-98461-513-8 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Advanced Power Electronics

Since the course focuses primarily on provide a comprehensive coverage of converters, choppers, inverters and motor drives; learners will be able to execute design, analysis and evaluation of assigned projects using sound engineering principles and adhering to the business policies and product/program requirements. The course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test.

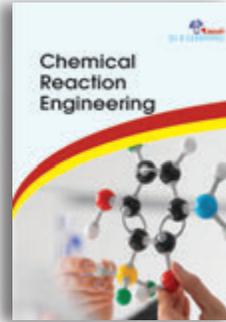

ISBN 978-1-98461-515-2 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Analog and Digital Electronics

Unlike courses currently on the market, this interactive course attempts to satisfy two goals: combine circuits and electronics into a single, unified treatment, and establish a strong connection with the contemporary world of digital systems. The course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test.

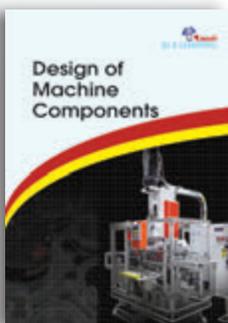

ISBN 978-1-98461-519-0 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Chemical Reaction Engineering

Explaining how to solve chemical reaction problems using reasoning rather than memorization, this concise, illustrated course provides updated introduction to chemical reaction engineering. The course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test.

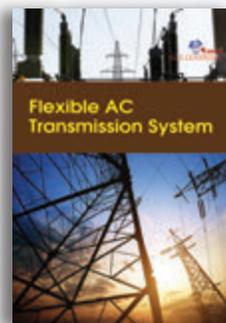

ISBN 978-1-98461-527-5 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Design of Machine Components

Combining the needed engineering mechanics concepts, analysis of various machine elements, design procedures, and the application of numerical and computational tools; this course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test.

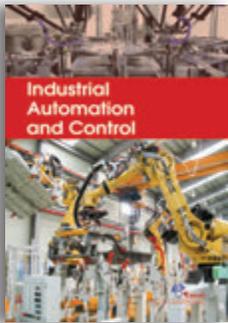

ISBN 978-1-98461-541-1 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Flexible AC Transmission System

The course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test; covering information about the application of various flexible AC transmission system devices to wind energy conversion systems.

ISBN 978-1-98461-549-7 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Industrial Automation and Control

This interactive course is intended to provide state-of-the-art coverage of the entire spectrum of industrial automation and control. This course gives a comprehensive introduction to the concepts and languages of the new standard used to program industrial control systems, with e-lectures for theoretical understanding and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98461-562-6

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

Environmental Toxicology and Chemistry

Environmental toxicology and chemistry is a field of study that explores the effects of chemicals on the environment and organisms, including their behavior, fate, and toxicity. This course covers topics such as environmental risk assessment, chemical pollution, and environmental regulations. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686954
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

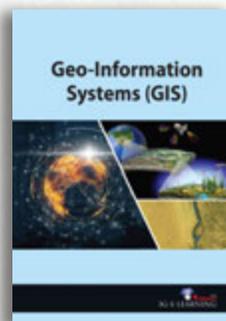

Environmental Quality Management

Environmental quality management is a course that covers the principles, tools, and techniques for managing environmental risks and ensuring compliance with environmental regulations. Students will learn about environmental auditing, pollution prevention, sustainability, and stakeholder engagement. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686961
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

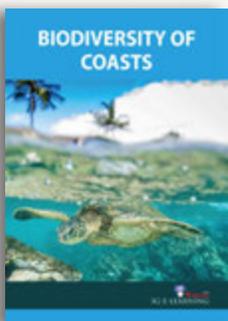

Geo-Information Systems (GIS)

A Geo-Information System (GIS) course typically covers the principles, theories, and techniques used for capturing, managing, analyzing, and visualizing spatial data. Students will learn how to use GIS software to solve real-world problems in fields such as urban planning, environmental management, and emergency response. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686978
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

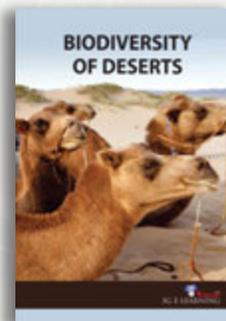

Biodiversity of Coasts

This course will explore the rich biodiversity of coastal ecosystems, including the unique flora and fauna found in these environments and the important ecological and economic roles they play. Students will also examine the threats to coastal biodiversity and explore conservation strategies to protect these vital ecosystems. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686985
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

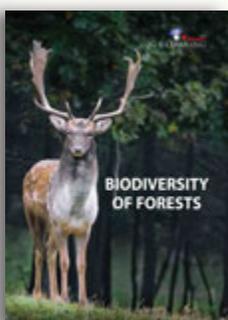

Biodiversity of Deserts

This course explores the unique and often overlooked biodiversity found in desert ecosystems around the world, examining the adaptations and ecological relationships that allow life to thrive in these harsh environments. Students will learn about the plants, animals, and microorganisms that call deserts home, and the importance of preserving these fragile habitats. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686992

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

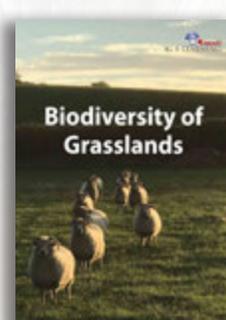

Biodiversity of Forests

This course will cover the importance of biodiversity in forest ecosystems and the various factors that contribute to it, including the ecological, social, and economic benefits of maintaining healthy and diverse forest ecosystems. Students will also learn about current threats to forest biodiversity and potential strategies for conservation and sustainable management. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984687005
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

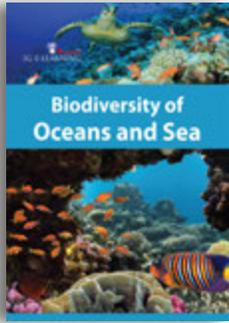

Biodiversity of Grasslands

This course explores the biodiversity of grassland ecosystems, including the ecological and evolutionary processes that shape them. Students will learn about the key plant and animal species found in grasslands, the threats they face, and the conservation strategies that can be used to protect them. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984687012

Border Control & Security

This course focuses on principles and standards of the Border Security and Management Concept, which covers all three dimensions. The course equips learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-433-3
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

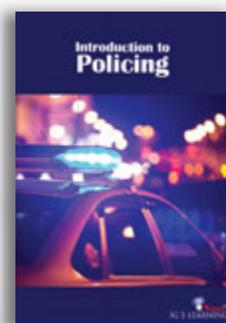

Cybercrime and Society

This course help students learn how to prevent computer-related crimes and understand trends in cybercrime. The course prepares learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-434-0
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

Introduction to Policing

Students study law enforcement agencies; examine the current challenges facing the contemporary police officer and practical police problems. The course prepares learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-435-7
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

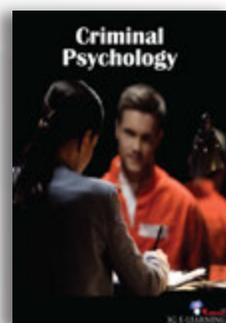

Gender and Crime

This course is designed to explore the important and under-studied intersection between gender/women and crime. It will explore the nature and extent of women as victims, offenders, and workers in the criminal justice system. This course equips beginners and advanced level learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-436-4
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

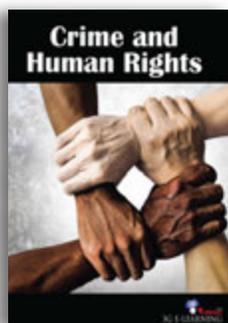

Criminal Psychology

Deals with the attributes and circumstances of the crime scene and the criminal. This course equips beginners and advanced level learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-437-1
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

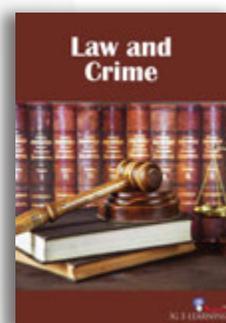

Crime and Human Rights

It provides an overview of the criminological debates about state crime as a means of discussing some of the wider concerns of critical criminology. The course introduces students to some of the issues associated with the establishment of an international system of criminal justice. This course equips learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-440-1
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

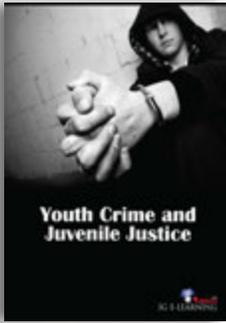

Law and Crime

Demonstrates an understanding of the nature, origin, purposes, and sanctions of substantive criminal law. It will analyze the general nature of crime, constitutional limits on crime and general principals of criminal liability. This course equips learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-441-8
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

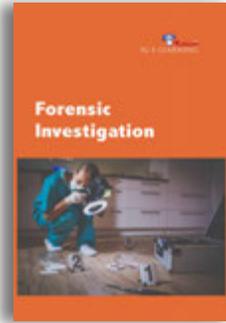

Youth Crime and Juvenile Justice

Explore patterns of offending and desistance from crime amongst children and young people; examine theories which have been forward to explain offending in childhood and adolescence; and assess the interventions and institutions which have been developed to deal with youth crime. This course provides the coverage of e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-442-5
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

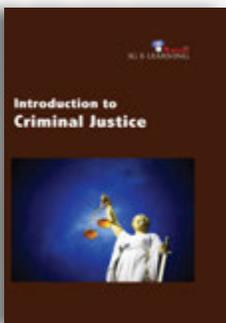

Forensic Investigation

Students practice collecting and storing findings and reconstructing a crime scene using computer technology. They also learn which products can be tested for hair, tissue, body fluids and other fibers. The course prepares learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-341-5
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

Introduction to Criminal Justice

This interactive course presents an introduction to the structure, functions, and operations of criminal justice agencies, including the police, the courts, and corrections. It provides a solid introduction to the mechanisms of the criminal justice system, with balanced coverage of the issues presented by each facet of the process. The course prepares learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-340-8
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

Introduction to Criminology

Criminology is the study of crime, criminal behavior patterns and the law. This course provides an introduction to the basic concepts and content of criminology, such as crime, criminal, delinquent, deviance, treatment, etc. The course prepares learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-342-2
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

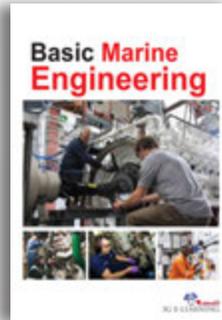

Maritime Communications

This course covers the principles and techniques of radio communication for ship-to-ship and ship-to-shore communication, as well as emergency procedures and regulations. Students will learn how to operate and maintain communication equipment, and effectively communicate using proper language and procedures. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686084
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

Basic Marine Engineering

This course is designed to provide fundamental knowledge and skills in the operation and maintenance of ship machinery and systems. This includes topics such as marine propulsion, electrical and electronic systems, safety procedures, and troubleshooting techniques. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686091
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

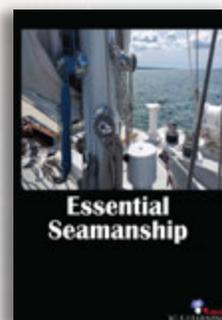

Ship Handling and Maneuvering

This course teaches students how to control and navigate ships in different situations, such as entering and leaving ports, berthing, and emergency maneuvers. The course covers principles of ship handling, propulsion systems, and the use of communication and navigation equipment. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686107
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

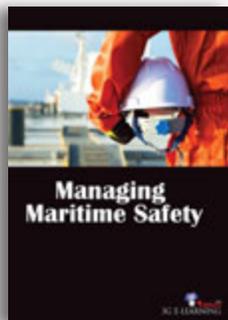

Essential Seamanship

The course provides an introduction to the basic skills required before taking a small boat to sea or taking an active part in running a boat. The course provides the coverage of e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-443-2
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

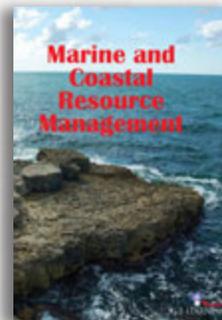

Managing Maritime Safety

The course is designed to provide participants with an understanding of creating an effective safety culture. This course equips beginners and advanced level learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-444-9
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

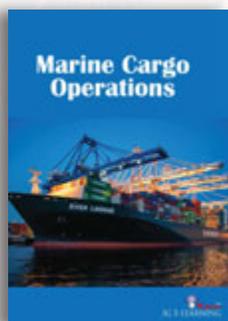

Marine and Coastal Resource Management

Provides excellent training to build a successful career in the field of marine environmental protection. The course prepares learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 9781-98467-445-6
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

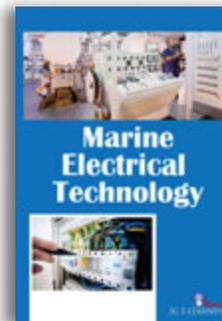

Marine Cargo Operations

It covers the practical and legal aspects of cargo operations and prepares prospective Chief Mates for their role in maintaining the vessel. This course equips beginners and advanced level learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-446-3
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

Marine Electrical Technology

This interactive course is aimed to develop skills of students in Marine Electrical Technology. The students will be imparted training in handling various electrical instruments to find out faults on various electrical equipment's onboard ships and rectify such faults. This course equips learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-447-0
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

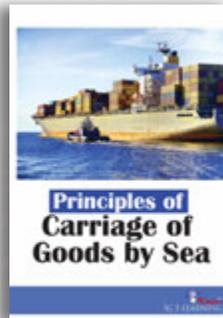

Maritime Security

The main aim of this course is to provide its participants with all the necessary theoretical knowledge and practical skills to perform the duties. It brings e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-451-7
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

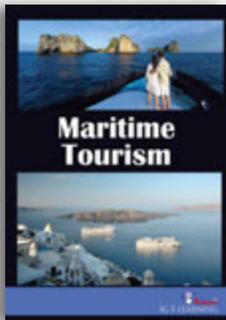

Principles of Carriage of Goods by Sea

The main aim of this course is to provide its participants with all the necessary theoretical knowledge and practical skills to perform the duties. It brings e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-452-4
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

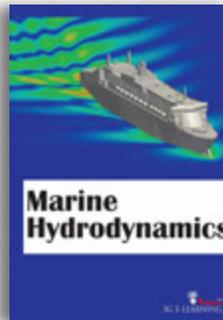

Maritime Tourism

Provides an overview of the history, development and growth of marine tourism and describes the characteristics of 'marine tourists' and the 'vendors' of these tourist activities. The interactive course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98467-453-1
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

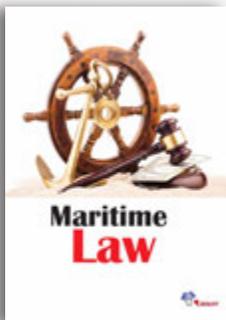

Marine Hydrodynamics

Presents an introduction to Marine Hydrodynamics. This course will develop the fundamentals of fluid mechanics in the context of naval architecture and ocean engineering. This course equips learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-448-7
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

Maritime Law

This interactive course deals with the relevant areas of international maritime law, including the law of the sea, marine environmental law, maritime security law, and shipping law. This course equips learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-449-4
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

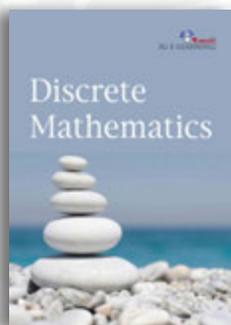

Maritime Business and Economics

This book provides a comprehensive introduction to the economics of the business of maritime transport. This course equips learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-450-0
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

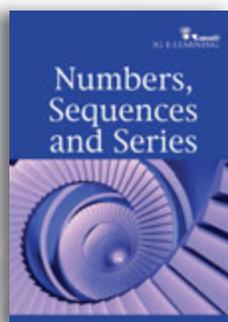

Discrete Mathematics

Discrete mathematics is a branch of mathematics that deals with mathematical structures that are countable or distinct. This course includes topics such as logic, set theory, combinatorics, graph theory, and algorithms. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984687562
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

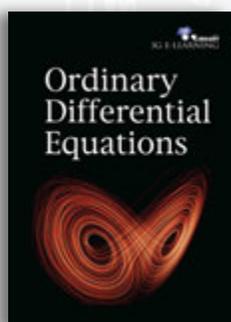

Numbers, Sequences and Series

This course covers the fundamentals of numbers, sequences, and series in mathematics, including properties of integers, arithmetic and geometric sequences, and convergence of series. Students will learn how to manipulate and solve problems involving these concepts through various methods and techniques. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984687579
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

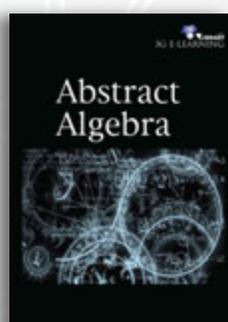

Ordinary Differential Equations

The Ordinary Differential Equations (ODEs) course studies mathematical models that describe the behavior of physical systems in terms of rates of change. It covers methods for solving and analyzing ODEs, including separation of variables, integrating factors, and numerical methods. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984687586
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

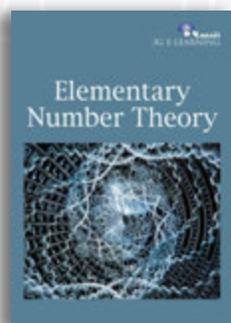

Abstract Algebra

Abstract Algebra is the study of algebraic structures such as groups, rings, and fields, with an emphasis on their abstract properties and their applications to various branches of mathematics and beyond. The course involves the study of algebraic equations and their solutions, as well as the development of mathematical structures and theories to understand and solve complex problems. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984687593
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

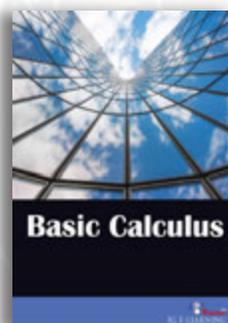

Elementary Number Theory

Elementary Number Theory is a branch of mathematics that focuses on the study of the properties and behavior of integers. This course covers topics such as divisibility, prime numbers, modular arithmetic, Diophantine equations, and basic number-theoretic functions. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984687609
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

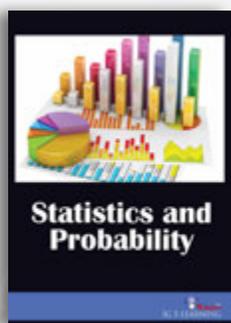

Basic Calculus

Presents understanding of functions in preparation for the process of differentiation and integration. The interactive course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98467-455-5
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

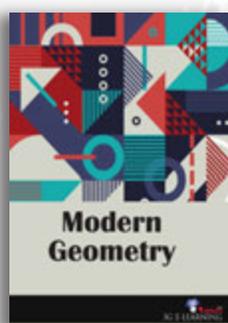

Statistics and Probability

This course include probability axioms, conditional probability, the law of total probability, Bayes' theorem, independence, discrete and continuous random variables, multiple random variables, sum of random variables, the sample mean, and introduction to statistical inference. The interactive course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98467-454-8
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

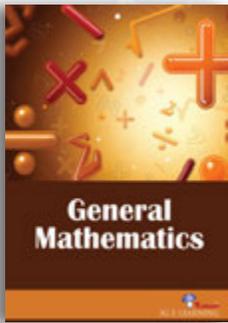

Modern Geometry

Provides an overview of the field of geometry by studying selected geometries in depth, both Euclidean and non-Euclidean. This course equips beginners and advanced level learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-460-9
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

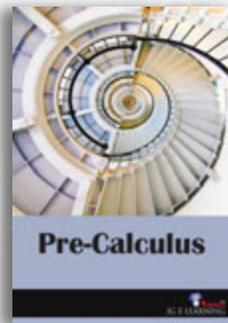

General Mathematics

Aims to develop learners' understanding of concepts and techniques drawn from number and algebra, trigonometry and world geometry, sequences, finance, networks and decision mathematics and statistics, in order to solve applied problems. The interactive course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98467-456-2
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

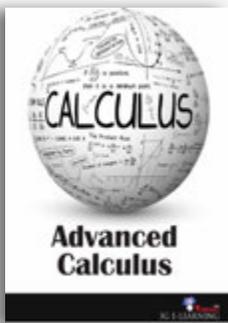

Pre-Calculus

Presents a thoughtful introduction to advanced studies leading to calculus. The course briefly reviews linear equations, inequalities, and systems and moves purposefully into the study of functions. The interactive course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98467-457-9
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

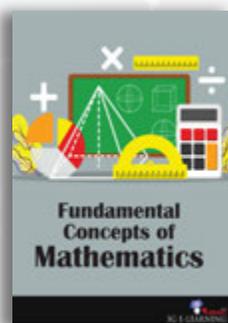

Advanced Calculus

Presents an introduction to vector and vector calculus, linear approximations of vector valued functions of several variables, the derivative matrix, real valued functions, multiple integrals, line integrals, surface integrals, and theorems of Green, and Stokes' divergence. The interactive course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98467-458-6
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

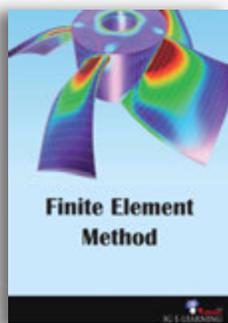

Fundamental Concepts of Mathematics

This course is designed for the student who needs to improve or review basic math skills and concepts. The interactive course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test.

ISBN 978-1-98467-459-3
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

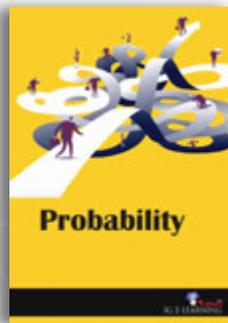

Finite Element Method

Introduces students to the fundamental theory of the finite element method as a general tool for numerically solving differential equations for a wide range of engineering problems. The course prepares learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-464-7
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

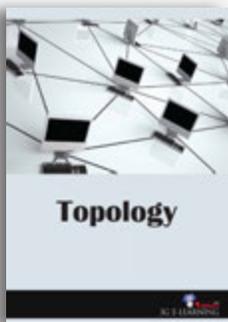

Probability

The course includes probability axioms, conditional probability, the law of total probability, Bayes' theorem, independence, discrete and continuous random variables, multiple random variables, sum of random variables, the sample mean, and introduction to statistical inference. This course equips beginners and advanced level learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-461-6
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

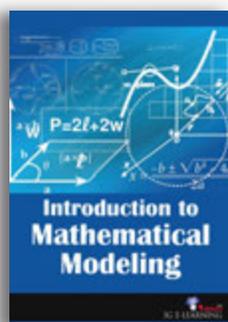

Topology

This course introduces topology, covering topics fundamental to modern analysis and geometry. This course equips beginners and advanced level learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-462-3
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

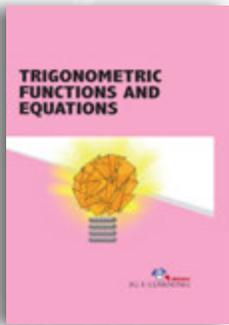

Introduction to Mathematical Modeling

This course is an introduction to mathematical modeling based on the use of elementary functions to describe and explore real-world phenomena and data. The course equips learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-463-0
www.3gsmartlibrary.com

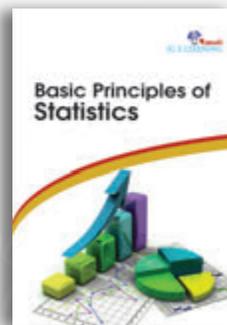

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

Trigonometric Functions And Equations

Student will learn relations, functions, graphs, trigonometry, polar coordinates, complex numbers, limits, and derivatives. The student will analyze and graph mathematical functions. There is an emphasis on verification of trigonometric identities using all of the basic trigonometric identities. In this interactive course, the coverage of e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

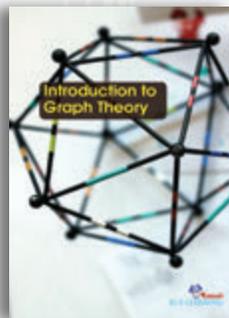

ISBN 978-1-98463-294-4 Price: \$75 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Basic Principles of Statistics

This course surveys a broad range of topics in probability and statistics. It provides the statistical background that a learner needs to know. This course provides e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

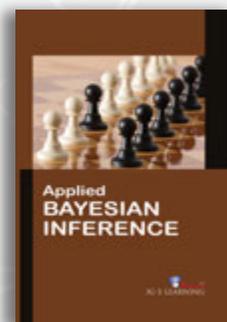

ISBN 978-1-98461-411-7 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Introduction to Graph Theory

This interactive course covers a broad spectrum of topics in graph theory, geometry, convexity, and combinatorics. A comprehensive course for beginners and advance level in graph theory and its applications; providing e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

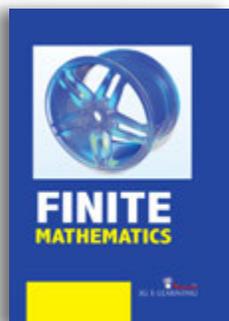

ISBN 978-1-98461-635-7 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Applied Bayesian Inference

This interactive course outlines Bayesian statistical analysis in great detail, from the development of a model through the process of making statistical inference. E-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

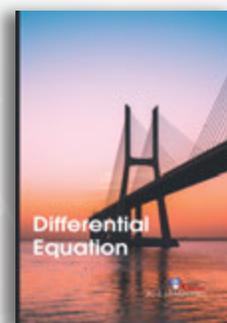

ISBN 978-1-98463-114-5 Price: \$75 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Finite Mathematics

In this interactive course, the coverage of e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test that introduces fundamentals of linear algebra and theory of convex sets. This course will help you grasp and understand finite mathematics--whatever your learning style may be.

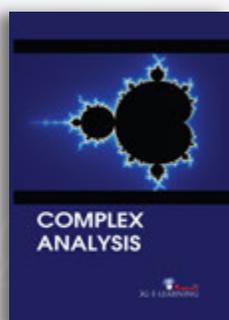

ISBN 978-1-98463-068-1 Price: \$75 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Differential Equation

This course provides a mathematical treatment of differential equations and the related physical systems. This course provides a basic introductory course in partial differential equations, in which theory and applications are interrelated and developed side by side.

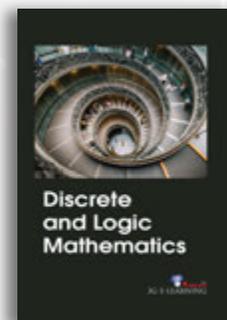

ISBN 978-1-98463-162-6 Price: \$75 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Complex Analysis

This interactive course covers the study of complex numbers together with their derivatives, manipulation, and other properties. This course provides a rigorous introduction to the theory of complex functions. The course prepares learners with e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

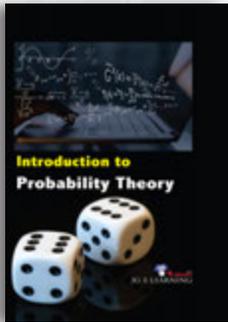

ISBN 978-1-98463-149-7 Price: \$75 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Discrete and Logic Mathematics

This course features a unique combination of comprehensive coverage of logic with a solid exposition of the most important fields of discrete mathematics. In particular, this course is meant to introduce logic, proofs, sets, relations, functions, counting, and probability, with an emphasis on applications in computer science. It brings e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

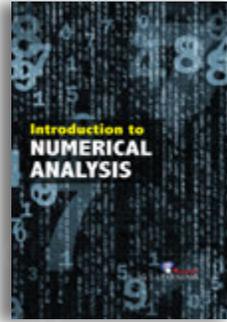

ISBN 978-1-98463-163-3 Price: \$75 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Introduction to Probability Theory

This interactive course discusses probability theory and many methods used in problems of statistical inference. The course presents an innovative approach to teaching probability theory and stochastic processes. It brings e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

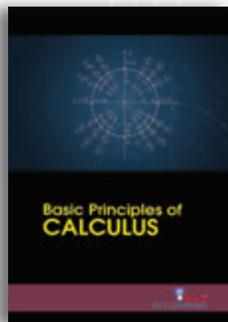

ISBN 978-1-98463-225-8 Price: \$75 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Introduction to Numerical Analysis

This interactive course is an introduction to numerical analysis combining rigor with practical applications. This course sets out the principles of the methods commonly employed in obtaining numerical solutions to mathematical equations and shows how they are applied in solving particular types of equations. It brings e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

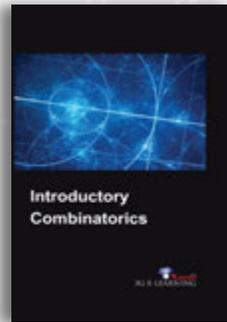

ISBN 978-1-98463-223-4 Price: \$75 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Basic Principles of Calculus

This comprehensive course covers equations, functions, and graphs; limits, derivatives; integrals and antiderivatives; word problems; applications of integrals to geometry; and much more. The course provides a full and clear account of the essentials of calculus, presented in an engaging style that is both readable and mathematically precise. This course provides e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

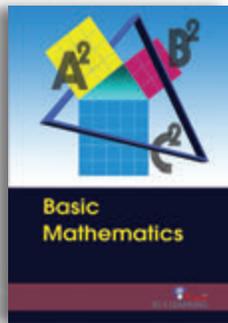

ISBN 978-1-98461-413-1 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Introductory Combinatorics

Combinatorics is a fascinating branch of mathematics that applies to problems ranging from card games to quantum physics to the Internet. The course covers the elementary concepts in combinatorics and presents the most elementary techniques in combinatorics. This interactive course equips learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

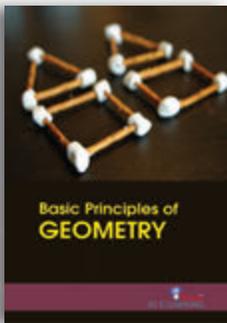

ISBN 978-1-98463-227-2 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Basic Mathematics

This interactive course on Basic Mathematics teaches you all the maths you need for everyday situations. Throughout this course, you'll find hundreds of new and relevant applications, to provide a modern approach to basic math concepts. This course provides e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

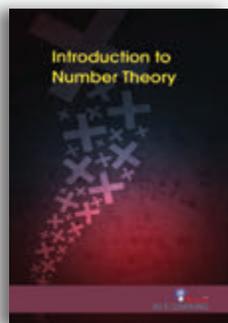

ISBN 978-1-98461-521-3 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Basic Principles of Geometry

This comprehensive course is addressed to students at advanced and beginner's level to discover geometry and deepen their knowledge and understanding. With a clear explanation of the featured geometry topic, this course provides e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

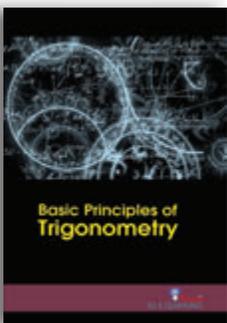

ISBN 978-1-98461-412-4 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Introduction to Number Theory

This interactive course covers the basics of number theory, offers an outstanding introduction to its goal is to give a view of the theory of numbers, of the problems with which this theory deals, and of the methods that are used, and more. This course equips e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

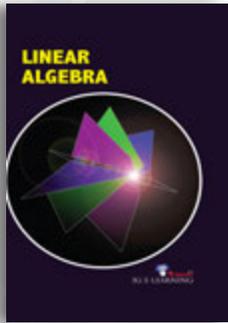

ISBN 978-1-98461-634-0 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Basic Principles of Trigonometry

This comprehensive course is aimed to help beginners and advanced level in Trigonometry; includes charts, graphs, diagrams, and instructive illustrations. This course provides e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98461-414-8 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

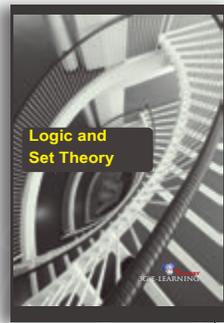

Linear Algebra

A groundbreaking introduction to vectors, matrices, and least squares for engineering applications, offering a wealth of practical examples. The course guides students as they devise proofs and deal with abstractions by focusing on a comprehensive blend between theory and applications. The course prepares learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-233-3
www.3gsmartlibrary.com

Price: \$75 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

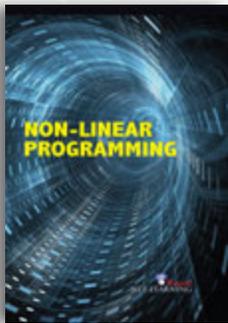

Logic and Set Theory

This course provides a practical, modern approach to teaching logic and set theory, equipping students with the necessary mathematical understanding and skills required for the mathematical specification of software. The course prepares learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-235-7
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

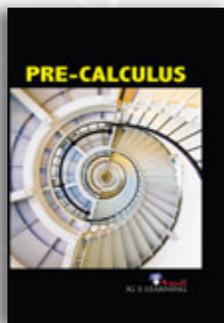

Non-Linear Programming

With a general introduction to nonlinear programming with illustrative examples and guidelines for model construction, this interactive course is a concise, rigorous, yet accessible, account of the fundamentals of constrained optimization theory. It brings e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-246-3
www.3gsmartlibrary.com

Price: \$75 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

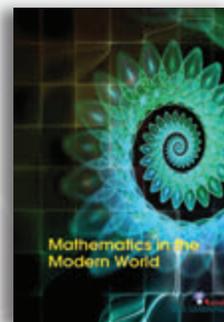

Pre-Calculus

This course is designed to cover topics in Algebra ranging from polynomial, rational, and exponential functions to conic sections. This course will teach you the skills required for success in future Calculus studies. This course is intended primarily for those students who are majoring in science, engineering, or mathematics. In this interactive course, the coverage of e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-254-8
www.3gsmartlibrary.com

Price: \$75 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

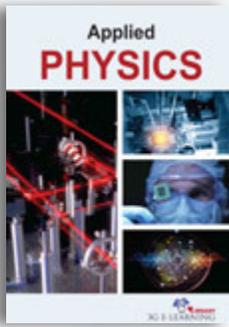

Mathematics in the Modern World

This interactive course presents a humorous look at the concepts of modern mathematics. It traces the development of the most important mathematical concepts, models and methods with applications. This course equips e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98461-646-3
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

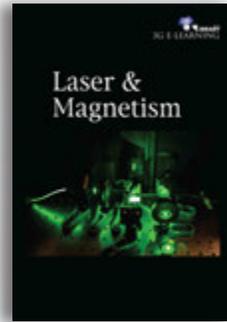

Applied Physics

Applied Physics is the study of the fundamental principles of physics and how they are applied to real-world situations, including technology, engineering, and medicine. This interactive course involves the practical application of physics principles to solve problems and develop new technologies. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984686183
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

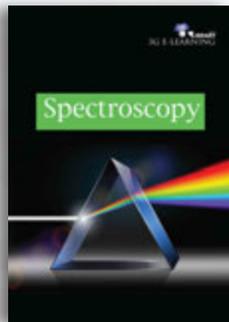

Laser & Magnetism

This course deals with the principles of laser technology and its applications in magnetism, including the interaction of lasers with magnetic materials, magnetic field measurement using lasers, and the use of lasers for magnetic data storage and manipulation. Students will also learn about the latest developments and future prospects in the field. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984687616
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

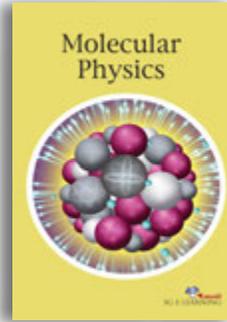

Spectroscopy

Spectroscopy is the study of how light interacts with matter. It involves the use of various techniques to analyze the electromagnetic radiation emitted or absorbed by different substances to identify and quantify their chemical and physical properties. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

Molecular Physics

Molecular Physics is the study of the behavior and interactions of molecules and their constituent atoms. It covers topics such as molecular structure, spectroscopy, thermodynamics, and statistical mechanics. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984687630

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

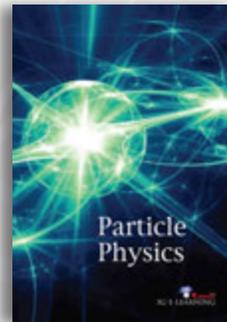

Nonlinear Optics

Nonlinear Optics is the study of the interaction of intense laser light with matter, leading to new and often surprising optical phenomena that cannot be explained by linear optics. This field has applications in telecommunications, laser technology, quantum information processing, and biophotonics. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984687647
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

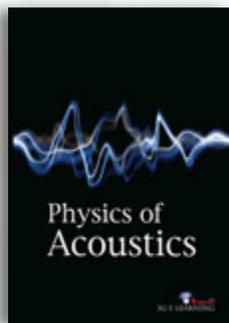

Particle Physics

Particle Physics is the study of the fundamental constituents of matter and their interactions. This course covers topics such as particle accelerators, the standard model of particle physics, and the search for new particles beyond the standard model. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984687654
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

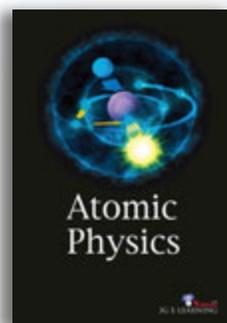

Physics of Acoustics

The Physics of Acoustics course explores the science of sound waves and their behavior in various mediums. It covers topics such as wave propagation, reflection, refraction, interference, and resonance, as well as applications in fields such as music, communication, and medical imaging. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984687661
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

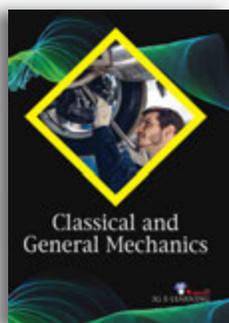

Atomic Physics

Atomic physics is the study of the properties and behavior of atoms, which are the basic building blocks of matter. The course involves understanding the interactions between atoms and electromagnetic radiation, as well as their structures and energy levels. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

ISBN 9781984687678
www.3gsmartlibrary.com

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

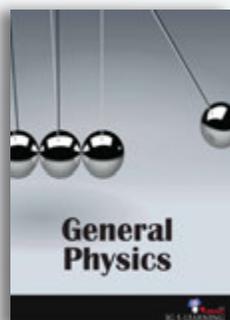

Classical and General Mechanics

Classical mechanics is the study of the motion of objects based on the principles of Newton's laws of motion and conservation of energy and momentum. General mechanics extends the study to include more complex systems, such as those with non-inertial frames of reference or involving relativistic effects. This course deals with the theory of classical and general mechanics. Learn new skills with e-lectures and videos, then test your knowledge with a quiz in this interactive course.

Price: \$90 | Year: 2023 | Interactive Course | Level: Beginner to Advanced

ISBN 9781984687685
www.3gsmartlibrary.com

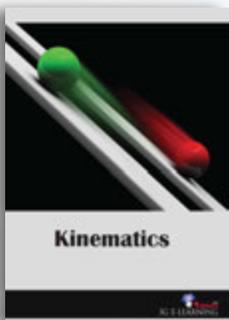

General Physics

The course includes mechanics, material properties, fluid mechanics, thermodynamics, waves, and sound. This course equips learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

ISBN 978-1-98467-466-1
www.3gsmartlibrary.com

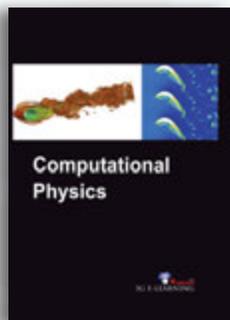

Kinematics

Presents the description of the motion of rigid bodies using relative motions and moving coordinate systems are studied to solve kinematics and kinetics problem of rigid bodies. The course prepares learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

ISBN 978-1-98467-465-4
www.3gsmartlibrary.com

Computational Physics

This interactive course is designed to provide direct experience in the computer modelling of physical systems. This course is an introduction to the computational methods used in physics and other related scientific fields. This course equips e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

ISBN 978-1-98463-151-0
www.3gsmartlibrary.com

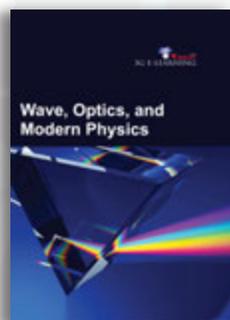

Biophysics

A growing number of applications in biotechnology are based on these biophysical concepts. The course covers biophysical processes, including oxidative phosphorylation, diffusion, bioenergetics, conformational transitions in proteins. This interactive course equips beginners and advanced level learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

ISBN 978-1-98463-127-5
www.3gsmartlibrary.com

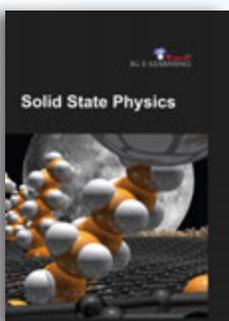

Wave, Optics, and Modern Physics

This course continues to provide a thorough understanding of the principles of modern physics. In this course the properties of light waves in isotropic and anisotropic media are discussed on the basis of the electromagnetic nature of light. It brings e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

ISBN 978-1-98463-278-4
www.3gsmartlibrary.com

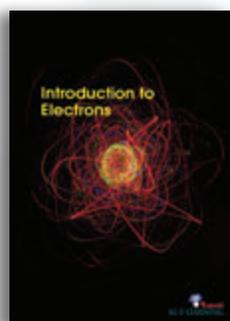

Solid State Physics

This prestigious course pertains to all aspects of solid state physics. The course provides a guide to principal physical properties of condensed matter, as well as the underlying theory necessary for an understanding of their origins. In this interactive course, the coverage of e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

ISBN 978-1-98463-272-2
www.3gsmartlibrary.com

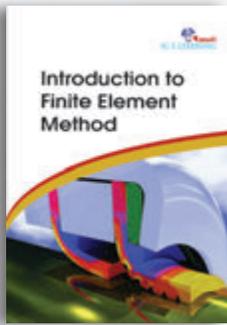

Introduction to Electrons

This interactive course focuses on electrons, which the student needs to learn first in solid state physics, introduces the learner to the behavior of electrons in solids, starting with the simplest possible model. This course equips e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

ISBN 978-1-98460-046-2

Introduction to Finite Element Method

This interactive course discusses the basics of the finite element method in a simple and systematic way. The course retains its strong conceptual approach, clearly examining the mathematical underpinnings of FEM, and providing a general approach of engineering application areas. This course equips e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98461-617-3
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

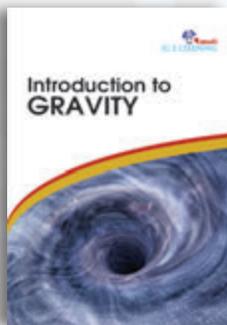

Introduction to Photons

This interactive course addresses the nature of coherent excitation, the difference between coherent and incoherent excitation, and the simple models that illustrate coherent excitation, expected patterns of excitation in real atoms. The course gives an introduction to the field quantization of light and matter with applications to atomic physics. This course equips e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98460-068-4
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

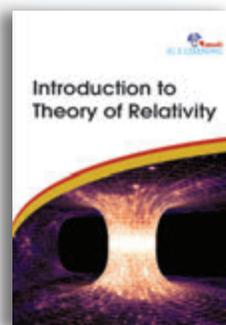

Introduction to Gravity

This course looks at the development of our understanding of gravity, from Newton's apple to gravitational waves and efforts such as string theory to combine gravity with quantum mechanics. This interactive course equips e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98460-036-3
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

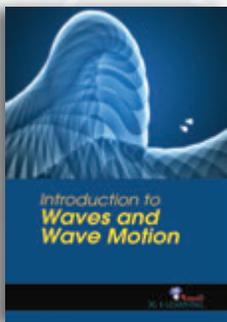

Introduction to Theory of Relativity

Beginning with a comprehensive but simple review of special relativity, the course creates an outline of the ideas of general relativity, elaborates on physical ideas underlying relativity, examining special theory. This interactive course equips e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98460-040-0
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

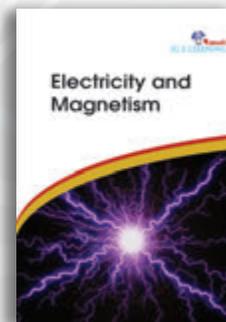

Introduction to Waves and Wave Motion

This course provides a simple introduction to the concepts of waves and wave motion in physics. Some more advanced material on both linear and nonlinear waves is also included, thus making the course suitable for beginners and advanced level students. This course equips e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98460-081-3
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

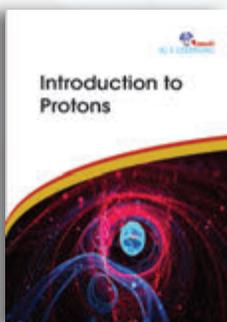

Electricity and Magnetism

This comprehensive covers introducing students to electricity and magnetism, on the physics of electricity, magnetism, and electromagnetic fields and waves. This course equips e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98461-615-9
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

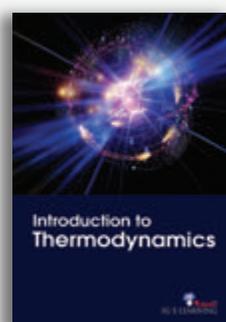

Introduction to Protons

Each element on the periodic table consists of protons, neutrons, and electrons. A proton is a subatomic particle with a positive electric charge. Protons are found in the nucleus of every atom. This interactive course will cover the properties and behavior of the proton, covering e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

Floods

This resource discusses the different types of floods, including what causes them, the damage they do, how people deal with them, and historic floods that have occurred. This resource equips learners with e-lectures for theoretical understanding and videos for practical knowledge.

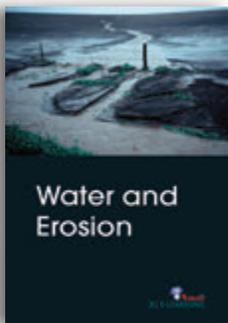

ISBN 978-1-98461-794-1 Price: \$70 | Year: 2020 | eBook & Resources | Level: Beginner
www.3gsmartlibrary.com

Earth Climates

The climate of our planet varies on all time and space scales, and the Earth has undergone periods which were much warmer than today. Earth's climate encompasses natural variations on regional scales, and it is the sum of these regional climates that constitutes the global mean. This interactive resource focuses on physical climate, but it also considers social and economic aspects of the global climate system. This resource equips learners with e-lectures for theoretical understanding and videos for practical knowledge.

www.3gsmartlibrary.com

Water and Erosion

Water erosion is the detachment and removal of soil material by water. The process may be natural or accelerated by human activity. This resource covers the wearing away of the soil surface by water from rain, runoff, snowmelt, and irrigation. This resource equips learners with e-lectures for theoretical understanding and videos for practical knowledge.

ISBN 978-1-98461-796-5 Price: \$70 | Year: 2020 | eBook & Resources | Level: Beginner
www.3gsmartlibrary.com

Wind and Erosion

This resource provides a comprehensive summary of the causes and recent developments in wind erosion in a clear outline of its future directions. Wind erosion is the physical wearing of the earth's surface by wind. This resource equips learners with e-lectures for theoretical understanding and videos for practical knowledge.

ISBN 978-1-98461-797-2 Price: \$70 | Year: 2020 | eBook & Resources | Level: Beginner
www.3gsmartlibrary.com

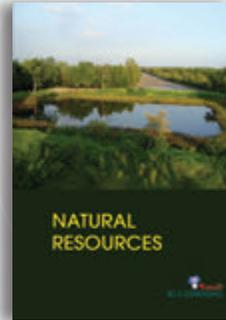

Land use and Soil

This interactive resource provides a thorough analysis of the multifaceted impacts of land use on soils. The resource develops an understanding of these interactions on a watershed scale, using soil hydrology models and addresses the consequences of land use and management changes on agriculture from a research perspective. This resource equips learners with e-lectures for theoretical understanding and videos for practical knowledge.

ISBN 978-1-98461-798-9
www.3gsmartlibrary.com

Price: \$70 | Year: 2020 | eBook & Resources | Level: Beginner

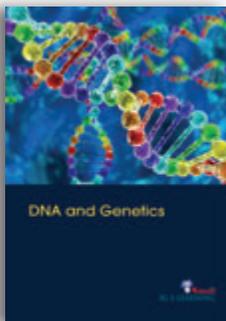

Natural Resources

This interactive resource explores the latest information from around the globe in this diverse and important field of natural resources management. This resource equips learners with e-lectures for theoretical understanding and videos for practical knowledge.

ISBN 978-1-98461-799-6
www.3gsmartlibrary.com

Price: \$70 | Year: 2020 | eBook & Resources | Level: Beginner

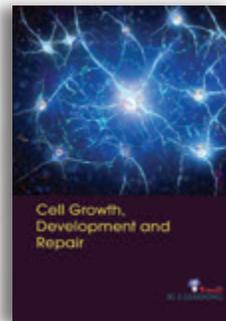

DNA and Genetics

This resource details the history of the study of genetics, from Mendel's discoveries to the decoding of the human genome, and explains the fundamentals of genetics, the function of genes, and DNA manipulation. This resource equips learners with e-lectures for theoretical understanding and videos for practical knowledge.

ISBN 978-1-98461-800-9
www.3gsmartlibrary.com

Price: \$70 | Year: 2020 | eBook & Resources | Level: Beginner

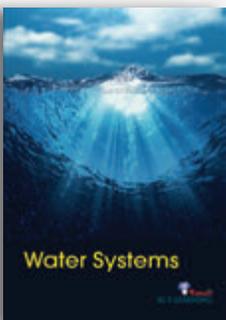

Cell Growth, Development and Repair

This resource provides a unique combination of succinctly expressed basic concepts of cell growth, development and cell repair with detailed instructions and protocols on how accurately to measure these processes. This resource equips learners with e-lectures for theoretical understanding and videos for practical knowledge.

ISBN 978-1-98461-801-6
www.3gsmartlibrary.com

Price: \$70 | Year: 2020 | eBook & Resources | Level: Beginner

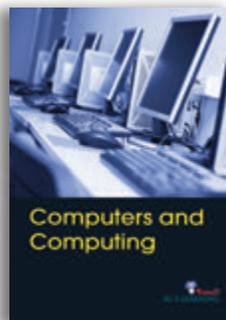

Water Systems

Public water systems deliver high-quality water to the public. This resource presents a vast array of problems, from pollution monitoring and control to the fundamentals of hydraulics and pipe fitting. This resource equips learners with e-lectures for theoretical understanding and videos for practical knowledge.

ISBN 978-1-98461-802-3
www.3gsmartlibrary.com

Price: \$70 | Year: 2020 | eBook & Resources | Level: Beginner

Computers and Computing

This resource explores interesting fundamental topics in computer science with the aim of showing how computers and computer programs work and how the various subfields of computer science are connected. This resource equips learners with e-lectures for theoretical understanding and videos for practical knowledge.

ISBN 978-1-98461-803-0
www.3gsmartlibrary.com

Price: \$70 | Year: 2020 | eBook & Resources | Level: Beginner

Technology

This resource analyzes the relationship between access to information and communication technologies and social inclusion, through the development of the printing press, to current computer-based technologies, including its influence on societies and cultures around the world. This resource equips learners with e-lectures for theoretical understanding and videos for practical knowledge.

Price: \$70 | Year: 2020 | eBook & Resources | Level: Beginner

The Skeletal System

This resource describes the major parts of the human skeleton, the role and function of the skeletal system, including the axial and appendicular systems, showing how the bones fit together and explaining how they heal when broken. This resource equips learners with e-lectures for theoretical understanding and videos for practical knowledge.

ISBN 978-1-98461-807-8
www.3gsmartlibrary.com

Price: \$70 | Year: 2020 | eBook & Resources | Level: Beginner

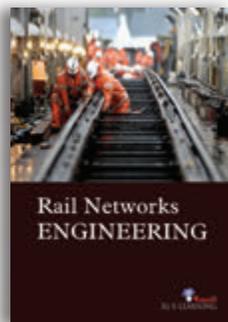

Animal Migration

This resource explains how animals use natural light, scent, and the Earth's magnetic field to find their way when they migrate, explores the mysteries of animal migration over land, through oceans, and by air. This resource equips learners with e-lectures for theoretical understanding and videos for practical knowledge.

ISBN 978-1-98461-808-5

Price: \$70 | Year: 2020 | eBook & Resources | Level: Beginner

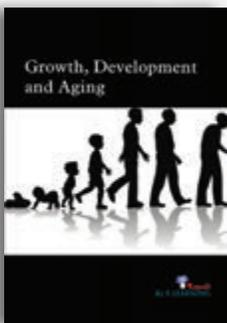

Rail Networks Engineering

This resource presents coverage on the technology of fully mechanized track construction with the deployment of simple track laying equipment to highly sophisticated track-laying trains. The resource equips learners with e-lectures for theoretical understanding and videos for practical knowledge.

ISBN 978-1-98461-844-3
www.3gsmartlibrary.com

Price: \$70 | Year: 2020 | eBook & Resources | Level: Beginner

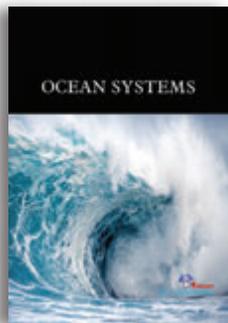

Growth, Development and Aging

This interactive resource on growth, development, and aging provides a broad overview and summary of where this field stands today, specifically with reference to life course issues and aging. This timely resource provides an in-depth analysis of these challenges and presents concrete policy options for tackling with e-lectures for theoretical understanding and videos for practical knowledge.

ISBN 978-1-98461-810-8
www.3gsmartlibrary.com

Price: \$70 | Year: 2020 | eBook & Resources | Level: Beginner

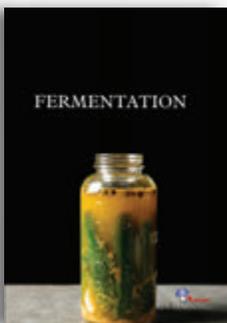

Ocean Systems

This resource is intended to help learners understand, identify, and recognize how oceanographic study feeds into the various designs of ocean observing systems. This resource covers acoustic undersea warfare systems, designing, manufacturing and supporting a broad range of compact, lightweight, high performance acoustic systems. This resource equips learners with e-lectures for theoretical understanding and videos for practical knowledge.

ISBN 978-1-98461-811-5
www.3gsmartlibrary.com

Price: \$70 | Year: 2020 | eBook & Resources | Level: Beginner

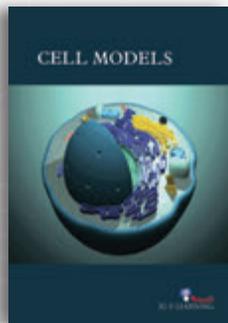

Fermentation

Within the fermentation industry, microorganisms are used for the production of specific metabolites such as acids, alcohols, enzymes, antibiotics and carbohydrates. This resource covers the latest information in fermentation concepts in microbiology, biotechnology, and food safety aspects, with e-lectures for theoretical understanding and videos for practical knowledge.

ISBN 978-1-98461-812-2
www.3gsmartlibrary.com

Price: \$70 | Year: 2020 | eBook & Resources | Level: Beginner

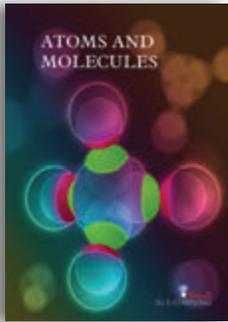

Cell Models

A cell model is a 3-dimensional model showing the parts of a plant or an animal cell. You can make a model cell with things from around your house, or you can buy a few simple items to create a fun, educational. This resource shows you step by step instructions to make a neat animal cell model through e-lectures for theoretical understanding and videos for practical knowledge.

ISBN 978-1-98461-813-9

Nuclear Energy

Explores the future of nuclear power as a source of energy, discussing the pros and cons of its use, how it works, the history of its use, and new developments. This resource equips learners with e-lectures for theoretical understanding and videos for practical knowledge.

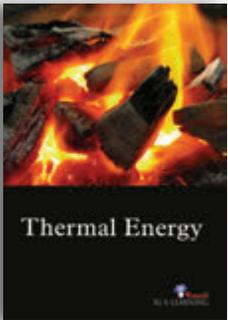

ISBN 978-1-98461-816-0 Price: \$70 | Year: 2020 | eBook & Resources | Level: Beginner
www.3gsmartlibrary.com

The Laws of Thermodynamics

This resource provides a simple introduction to the laws of thermodynamics, dealing with the relations between heat and other forms of energy, including thermal pollution, irreversible processes, and absolute zero. This resource equips learners with e-lectures for theoretical understanding and videos for practical knowledge.

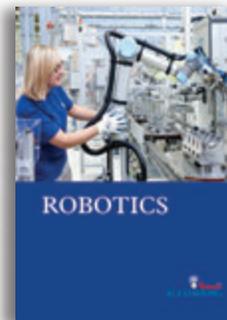

ISBN 978-1-98461-817-7 Price: \$70 | Year: 2020 | eBook & Resources | Level: Beginner
www.3gsmartlibrary.com

Thermal Energy

This course offers up-to-date coverage of recent energy efficient and sustainable technological methods and solutions, covering analysis, design and performance improvement as well as life-cycle costing and assessment. This resource equips learners with e-lectures for theoretical understanding and videos for practical knowledge.

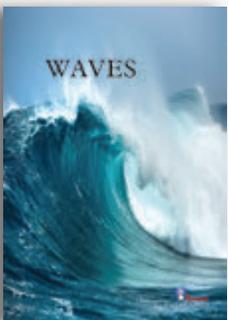

ISBN 978-1-98461-818-4 Price: \$70 | Year: 2020 | eBook & Resources | Level: Beginner
www.3gsmartlibrary.com

Robotics

This comprehensive course covers all the material needed to understand the principles behind the AI approach to robotics and to program an artificially intelligent robot for applications involving sensing, navigation, planning, and uncertainty. This course equips e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

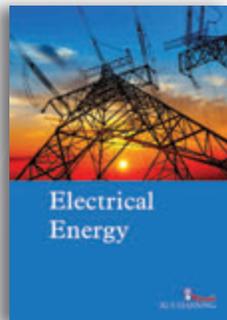

ISBN 978-1-98461-618-0 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Waves

In physics, a wave is an oscillation accompanied by a transfer of energy. This resource covers wave physics, covering the gravitational waves. This resource equips learners with e-lectures for theoretical understanding and videos for practical knowledge.

www.3gsmartlibrary.com

Price: \$70 | Year: 2020 | eBook & Resources | Level: Beginner

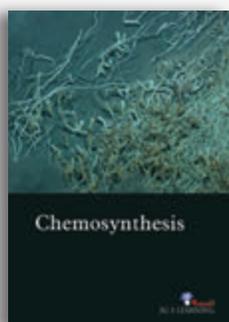

Photosynthesis

This resource covers all of the photosynthetic factors and processes under both normal and stressful conditions- including topics on the structures and mechanisms of photosynthesis. This resource equips learners with e-lectures for theoretical understanding and videos for practical knowledge.

ISBN 978-1-98461-823-8
www.3gsmartlibrary.com

Price: \$70 | Year: 2020 | eBook & Resources | Level: Beginner

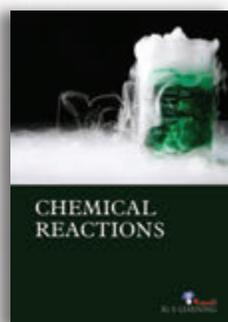

Chemosynthesis

Chemosynthesis is the process by which food is made by bacteria using chemicals as the energy source, rather than sunlight. This resource covers chemical energy to convert inorganic carbon compounds into organic matter, in contrast with photosynthesis, which exploits the energy of light to produce organic matter. This resource equips learners with e-lectures for theoretical understanding and videos for practical knowledge.

ISBN 978-1-98461-824-5
www.3gsmartlibrary.com

Price: \$70 | Year: 2020 | eBook & Resources | Level: Beginner

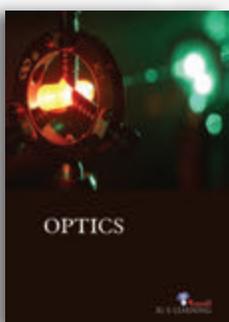

Chemical Reactions

This resource introduces the learner to the huge variety of chemical reactions that shape our world. Explores how chemical reactions happen, from how your body breaks down the food you eat. This resource equips learners with e-lectures for theoretical understanding and videos for practical knowledge.

ISBN 978-1-98461-825-2
www.3gsmartlibrary.com

Price: \$70 | Year: 2020 | eBook & Resources | Level: Beginner

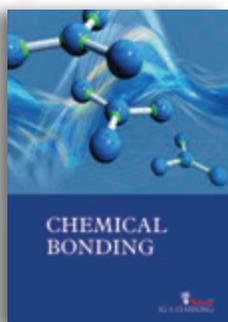

Optics

The resource presents an introduction to the entire field of optical physics and specifically the area of nonlinear optics, covering fundamental issues and applied aspects of this exciting area. This resource equips learners with e-lectures for theoretical understanding and videos for practical knowledge.

ISBN 978-1-98461-826-9
www.3gsmartlibrary.com

Price: \$70 | Year: 2020 | eBook & Resources | Level: Beginner

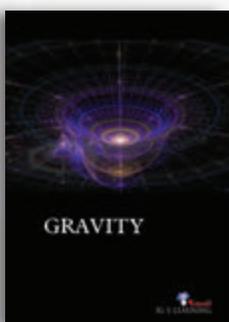

Chemical Bonding

This resource addresses the Electronic Structure and Chemical Bonding of atoms and molecules. It deals exclusively with achieving high-performance metal-polymer composites by chemical bonding. This resource equips learners with e-lectures for theoretical understanding and videos for practical knowledge.

ISBN 978-1-98461-827-6

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

Fashion Business

Presents an introduction to the study of natural and chemical fibers, yarns, fabrics, finishing, and dyeing. This course equips beginners and advanced level learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-505-7
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

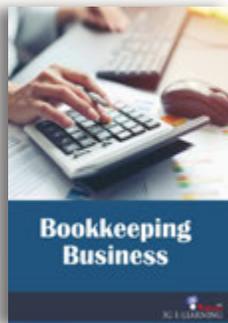

Makeup Business

The course is designed to give to students an overview of basic makeup techniques and to develop their skill in using those techniques. This course equips learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-506-4
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

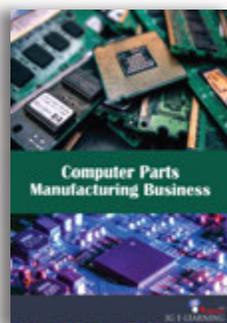

Bookkeeping Business

Presents an introduction to the accounting concepts, principles, and techniques used in recording business transactions. This course equips learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-507-1
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

Computer Parts Manufacturing Business

In this course, Computer Integrated Manufacturing (CIM) approaches are discussed. The course prepares learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-508-8
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

Software Development Business

The course evaluates past and current trends in software development practices including agile software development methods. The course prepares learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-509-5
www.3gsmartlibrary.com

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

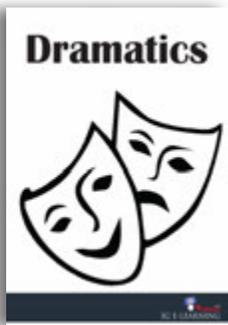

Smartphone Repair Business

Phones have become an important necessity in our day to day lives. The course deals with all aspects of Smartphone Repair Business. This course equips beginners and advanced level learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-510-1
www.3gsmartlibrary.com

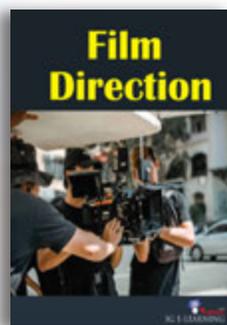

Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced

Dramatics

This interactive course aims to identify and discuss the theoretical and practical elements of drama. This course equips learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

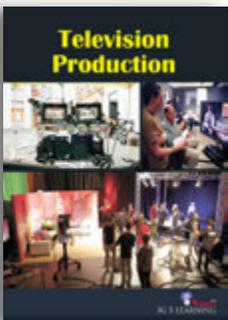

ISBN 978-1-98467-511-8 Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Film Direction

The course trains students to streamline the process of imagining a story, thinking it in audio-visual terms, adapting it to a screenplay and realizing it cinematically through the filmmaking process. This course equips learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-512-5 Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Television Production

The course covers an introduction to the basic principles, procedures, and techniques of television production. This course equips learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

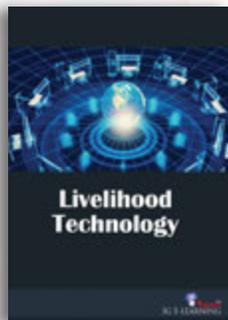

ISBN 978-1-98467-513-2 Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Fishery Technology

The course introduces to the student to the factors that influence the design of a range of commercial fishing gears and methods as well as the fishing vessels that are required for their effective operation to produce high-quality seafood. This course equips learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

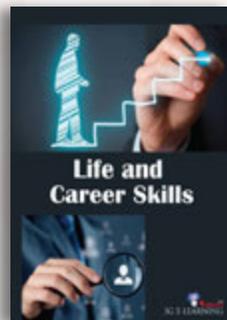

ISBN 978-1-98467-514-9 Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Livelihood Technology

The course develop students who are critical thinkers, self-reliant, independent, culturally sensitive, and entrepreneurial on the different uses of technology and application of life skills. It brings e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

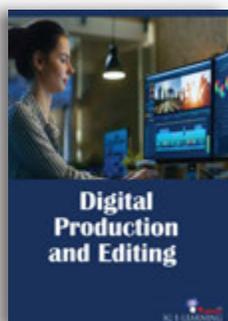

ISBN 978-1-98467-515-6 Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Life and Career Skills

This book deals with flexibility and adaptability, initiative and self-direction, social and cross-cultural skills, productivity and accountability, and leadership and responsibility. It brings e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

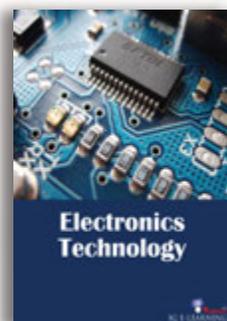

ISBN 978-1-98467-516-3 Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Digital Production and Editing

This course provides study of video camera operation and lighting techniques as they relate to digital video production. This course covers editing techniques as they relate to digital video production. The course prepares learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-517-0 Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Electronics Technology

Electronics Technology is an instructional program that prepares individuals to apply basic electronic principles and technical skills to the production, calibration, estimation, testing, assembling, installation and maintenance of electronic equipment. The course prepares learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98467-518-7 Price: \$90 | Year: 2022 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Maintenance Management

The field of maintenance is hard to approach because the language is strange. This course introduces the fundamentals of maintenance and will allow the all the major topics in the management of the maintenance function. In this interactive course, the coverage of e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

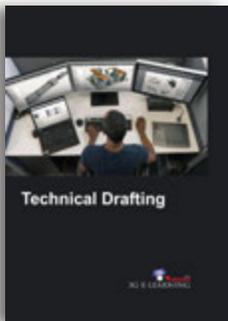

ISBN 978-1-98463-083-4 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Mechanical Drafting

In this interactive course, the coverage of e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test. The course combines coverage of both basic mechanical/manual drafting techniques and electrical drafting techniques in a single course.

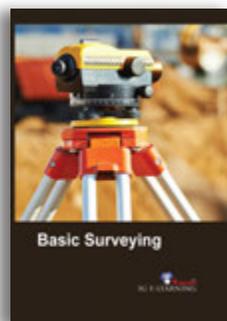

ISBN 978-1-98463-084-1 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Technical Drafting

Technical Drawing deals with the representation of plans throughout all phases of a project. This course is designed to help students acquire requisite knowledge and practical skills in technical drawing presentation and practices. E-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-104-6 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Basic Surveying

This interactive course presents a real-world view to assist learners to provide a guide to current practice and equipment for surveyors in the various professions involved in the construction industry and the environment. It provides e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

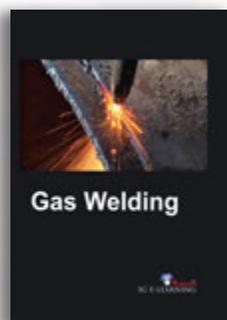

ISBN 978-1-98463-123-7 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Electrical Engineering Drawing

For Electrical Engineering students the study of Electrical Engineering Drawing is essential. This interactive course is designed to meet a felt need for a concise but systematic and rigorous drawing of electrical and electronics engineering to easily. The course offers rich learning experience with e-lectures for theoretical understanding, and videos for practical knowledge, as well as quizzes are given for knowledge test.

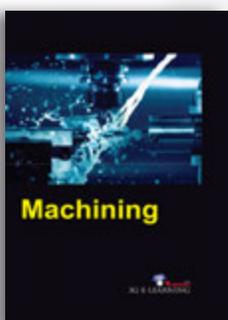

ISBN 978-1-98463-172-5 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Gas Welding

An interactive course in layout and fabrication related to the welding industry. This course will be of interest to welders, plumbers, metal workers, students, and those who wish to learn the basics of welding. It brings e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

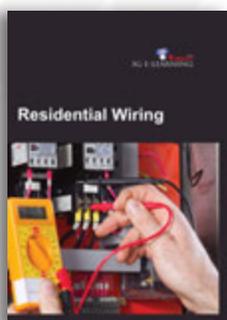

ISBN 978-1-98463-192-3 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Machining

This course covers basic procedures and machining operations encountered in the machine shop. Emphasizes beginning conventional machine tool operation and includes use and care of tools and instruments used in measurement, layout and inspection. This course thoroughly illustrates the causes of various phenomena and their effects on machining practice.

ISBN 978-1-98463-236-4 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Residential Wiring

A guide to residential electricity for professionals and laymen, discussing tools and materials, and offering instruction on how to design electrical wiring, install main service panels, install fixtures and appliances, and other tasks. This course explains what every electrician needs to know about electricity - how to select the right materials, how to follow floor plans, types and spacing of outlets, and permissible loading on general purpose circuits. In this interactive course, the coverage of e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-267-8 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

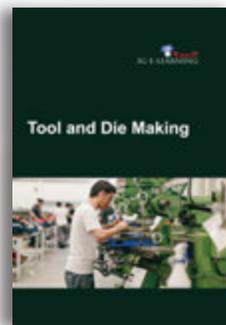

Textile Design, Dyeing and Printing

This course equips learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test. The course provides ideas and information for a wide range of projects, including advice on fabrics, recipes, equipment and techniques for dyeing and printing. Examines the process of creating and using fashion textiles and discusses the processes involved in fibre production, dyeing and finishing, and explores weaving and knitting.

ISBN 978-1-98463-275-3
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

Tool and Die Making

The course contains hands-on information, valuable tooling tips, and procedural recommendations regarding the selection, processing, and use of materials. This course also describes the scientific principles of the joining processes and provides practical information about the optimum selection of joining materials, joint designs and processing parameters. This course equips learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-276-0
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

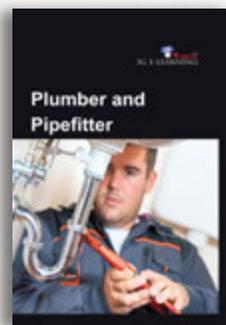

Electrical Safety

This interactive course provides an overview of basic electrical safety for construction workers with little or limited training or familiarity with electrical hazards. This course equips learners with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-302-6
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

Plumber and Pipefitter

Plumbers and Pipefitters plan, install and work on water and other pipes in large industrial buildings, such as oil refineries, defense establishments and refrigeration plants. The Plumbing and Pipefitting program provides the knowledge and skills you need for an entry level job. It brings e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-304-0
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

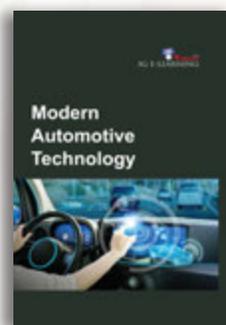

Window, Door and Façade Technology

This interactive course offers theory and practices of building construction, building design, and construction project management for a variety of audiences. This course aims to develop a fundamental understanding of the Window, Door and the façade technology, for building performance (energy consumption) and indoor thermal and visual comfort. It brings e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-305-7
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

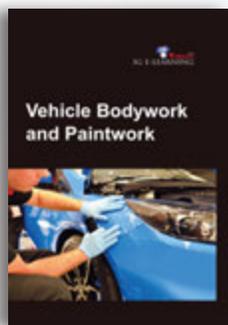

Modern Automotive Technology

This interactive course provides a general introduction to automobiles, their parts, and their functions for non-technical readers, and reviews certain scientific and mechanical principles behind the functioning of cars. To provide the student with a thorough understanding of the principles, construction, and operation of automotive components. It brings e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-306-4
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

Vehicle Bodywork and Paintwork

This course will help the learners learn more about paintless dent repair, the newest innovations and trends, tips to help you learn the craft and how to avoid the pitfalls of the business. This application course focuses on the techniques and procedures that are used to produce a professional paint job. It brings e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-307-1
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

Skin and Hair for Beauticians

This interactive course consists of all aspects of the beauty culture. You will learn haircutting and styling, manicures, pedicures, facials, make-up and chemical services. Discussing different aspects of skin care, this course explains how to care for one's skin at any age. It brings e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-310-1
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

Elderly care and End of Life Management

This interactive course teaches you the skills and knowledge necessary to provide effective care to any elderly or disabled clients in your care. This course describes the care and management of patients with advanced disease throughout the disease trajectory, extending from diagnosis of advanced disease until death. It brings e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-312-5
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

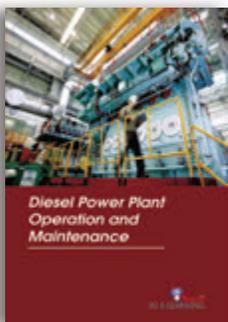

Fitness Commitment Counselor

This interactive course aims to provide you with the skills and knowledge to plan and prepare gym-based exercise programmes for apparently healthy adults, to conduct consultations, and to communicate with and motivate clients effectively. Covering all the major issues a counsellor or psychotherapist might meet in the counseling room. It brings e-lectures for theoretical understanding, videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98463-318-7
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

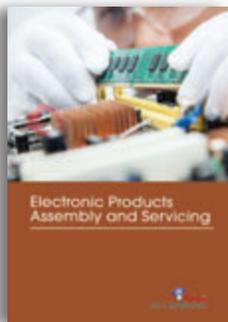

Diesel Power Plant Operation and Maintenance

This course will cover the principles involved in planning the plant layout for a typical diesel power generating station. It will also touch upon the care and maintenance of diesel generating plant equipment and various tests that need to be performed right from the acceptance of equipment at the supplier's works. This course provides e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98461-663-0
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

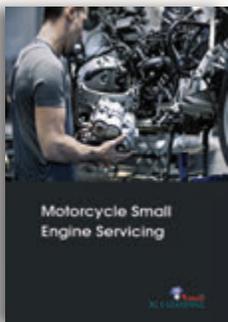

Electronic Products Assembly and Servicing

This course focuses on the delivery of foundational topics to prepare learners for higher learning and focuses on post-secondary technical vocational education and training for middle-level learners. The book includes everything that you will need to know for beginning television, computers and other electronic repair. This course provides e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98461-664-7
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

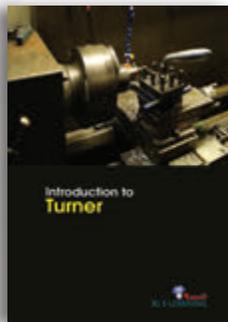

Motorcycle Small Engine Servicing

A comprehensive course covering everything you need to know about small engine repair and maintenance. This course provides e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98461-665-4
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

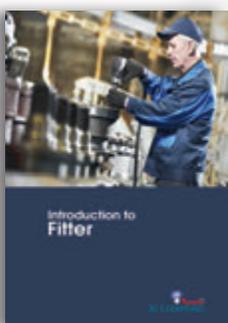

Introduction to Turner

In this interactive course, learners are introduced to different topics such as how to manufacture metal components and assemble them to construct tools, industrial machinery, and machine components; perform the most efficient order of processes required for specific projects. This course provides e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98461-674-6
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

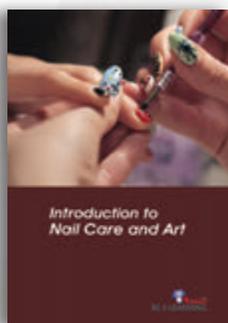

Introduction to Fitter

People of fitter trade can go for higher studies like diploma in engineering. This interactive course will enhance the skills of candidates, who can set up their own garage, motor/generator/transformer winding shops or fabrication shops. This course provides e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98461-675-3
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

Introduction to Nail Care and Art

Today, nail care has become one of the most sought after services in the beauty spectrum. It has also opened up new avenues as a creative career option. In this course learners will equip how to do manicures and pedicures, apply nail tips, and basic nail art. This course provides e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98461-682-1
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

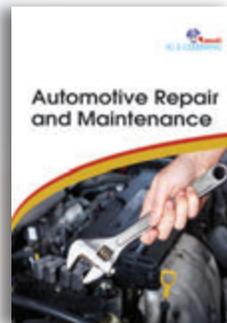

Electronic Control and Digital Electronics

Within this course the fundamental concepts associated with the topic of power electronic control are covered alongside the latest equipment and devices, new application areas and associated computer-assisted methods. This course equips learner's e-lectures for theoretical understanding, and videos for practical knowledge and quizzes are given for knowledge test.

ISBN 978-1-98461-415-5
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

Automotive Repair and Maintenance

For anyone who wants to learn on automotive repair and maintenance, this course is the place to start. Inside this course the reader will learn to do routine maintenance, tune-up procedures, engine repair, along with aspects of cooling and heating, air conditioning, fuel and exhaust, emissions control, ignition, brakes servicing and maintenance. This course equips learner's e-lectures for theoretical understanding, and videos for practical knowledge and quizzes are given for knowledge test.

ISBN 978-1-98461-416-2
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

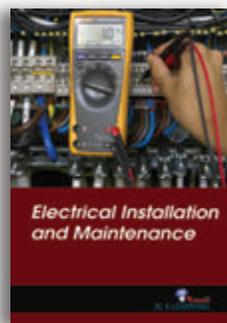

Automotive Servicing

This comprehensive course covers all major areas of automotive technology by progressing learners through an introduction to shop management and covering theories of vehicle systems operations with step-by-step procedures for troubleshooting and servicing. This course equips learner's e-lectures for theoretical understanding, and videos for practical knowledge and quizzes are given for knowledge test.

ISBN 978-1-98461-417-9
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

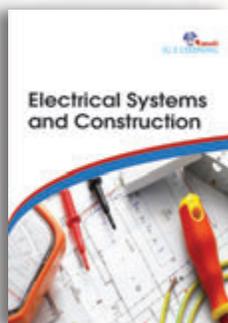

Electrical Installation and Maintenance

With all the information required to complete the principles of design, installation and maintenance, this interactive course provides guidance on test methods, with full attention given to electrical safety requirements. This course brings e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98461-418-6
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

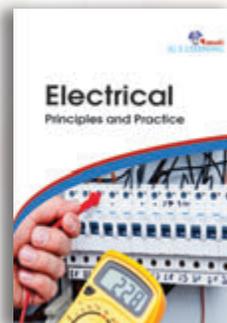

Electrical Systems and Construction

This course covers heavy current, overhead power lines as well as domestic, civil and industrial industries. It also covers light current in the form of digital and electronics in the communications, industrial electronics and sound engineering fields, as well as instrumentation. This course brings e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98461-419-3
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

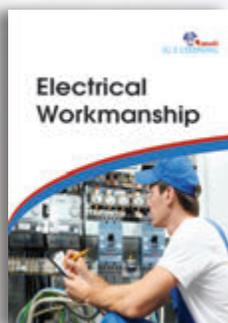

Electrical Principles and Practice

This course covers the basics of electrical principles and practice and introduces the field of learning at beginner and advanced level, to introduce students to the basic electrical and electronic principles needed by technicians in fields such as electrical engineering, electronics and telecommunications. This course brings e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98461-420-9
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

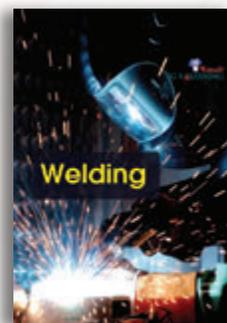

Electrical Workmanship

This course on Electrical Workmanship introduces students to the technical field. It will equip students with the necessary hand-skills for the construction industry. Workshop and fieldwork procedures that conform to safety regulations and safe working practices will also be learnt. This course brings e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98461-421-6
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

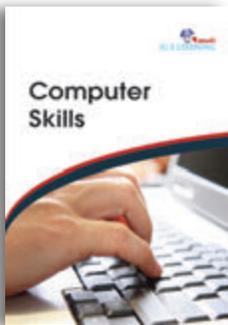

Welding

This course provides detailed illustrations, with an easy-to-follow introduction to welding and cutting, soldering, and basic metal processes. The emphasis throughout is on how processes work including e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98461-422-3
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

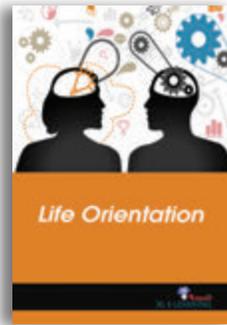

Computer Skills

This course provides activities and opportunities for learners to develop knowledge and understanding in the use and operation of computers and to explore and discuss the use of computer technology in everyday situations. This course equips e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98461-423-0
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

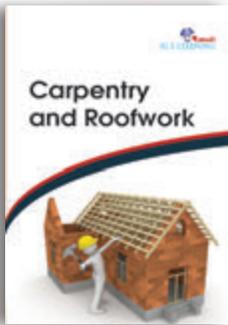

Life Orientation

This course aims to empower individuals to use their talents to achieve their full physical, intellectual, personal, emotional and social potential. This course will develop the skills to relate positively and make a contribution to family, community and society, while practicing the values deemed to be important for a fully functioning society with the desired ethics, integrity and principles. This course equips e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98461-424-7
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

Carpentry and Roofwork

Ash carpentry undertake all types of timber roof work whether it may be a small extension with pre-made timber roof trusses or a more complex hand cut roof on a new build with dormer windows etc. Without proper precautions, roof work is among the most hazardous of construction operations. This course covers all these aspects including e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98461-425-4
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

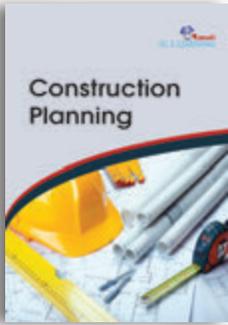

Concrete Structures

This course covers the applications of design concepts and provides a wealth of state-of-the-art information on design aspects of wide variety of reinforced concrete structures. This interactive course covers all these aspects including e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98461-426-1
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

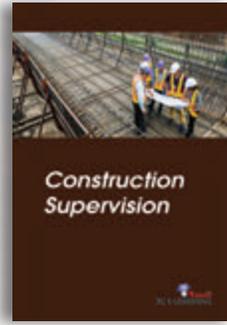

Construction Planning

This course explains the principal planning techniques using case studies and diagrams. This interactive course shows how planning fits into the overall management of construction work, including e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98461-427-8
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

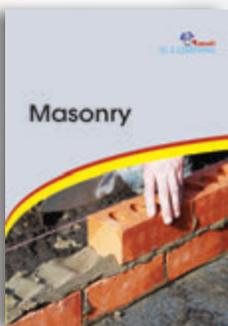

Construction Supervision

This course covers all supervisory situations one is likely to encounter on a commercial, industrial, or institutional construction project. It covers best practice within the building industry, detailing the many processes required to procure buildings, including e-lectures for theoretical understanding, and videos for practical knowledge and quizzes are given for knowledge test.

ISBN 978-1-98461-428-5
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

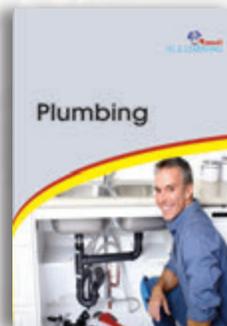

Masonry

This interactive course elaborates the fundamental principles of scale, construction, and assembly of building components using demonstrating techniques for working with concrete, mortar, bricks, and stones for a variety of masonry projects. This course covers e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98461-429-2
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

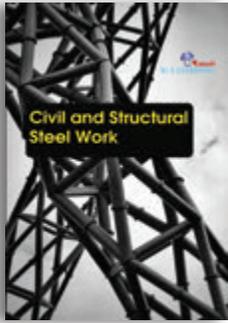

Plumbing

This course covers on supply plumbing; water heaters; drain, waste, and vent plumbing; and fixtures and faucets. Explains how a household plumbing system works, describes plumbing tools, pipes and fittings and explains how to install, maintain and repair the plumbing system, covering e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98461-430-8
www.3gsmartlibrary.com

Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced

Civil and Structural Steel Work

This interactive course addresses the techniques and products currently available to civil engineers, covering their features and highlighting advantages and deficiencies. This course covers e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

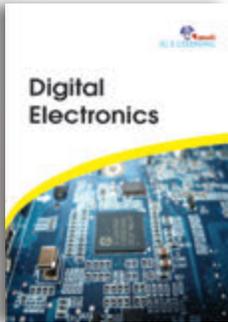

ISBN 978-1-98461-431-5 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Draftsmanship

Drafting is not only a good paying field — but offers splendid opportunities for advancement along many lines. This course introduces the basic skills of structural drawing and explains how to draft framing plans, section drawings, and fabrication details for steel, concrete, and wood structures. This course covers e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

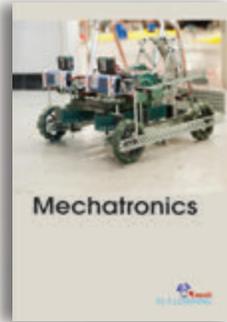

ISBN 978-1-98461-432-2 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Digital Electronics

This course provides practical and comprehensive coverage of digital electronics, including fundamental theory, operational aspects and potential applications. This course equips e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

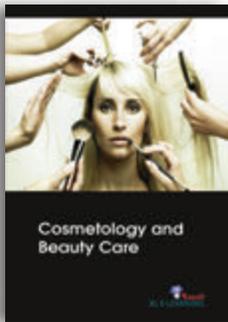

ISBN 978-1-98461-433-9 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Mechatronics

Drawing on knowledge and techniques from mechanical, aerospace, chemical, and electrical and computer engineering, the text explores the theory behind a wide range of basic devices used in automated machines and processes—from gears and pumps. This course offers a comprehensive coverage of the design and application of mechatronic systems, with e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

ISBN 978-1-98461-439-1 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
www.3gsmartlibrary.com

Cosmetology and Beauty Care

This course provides recipes for a variety of natural cosmetics and perfumes based on the use of essential oils. This interactive course offers on a range of topics including the science and treatment of aging skin as well as how to address the lifestyle factors which affect it. It covers e-lectures for theoretical understanding, and videos for practical knowledge, and quizzes are given for knowledge test.

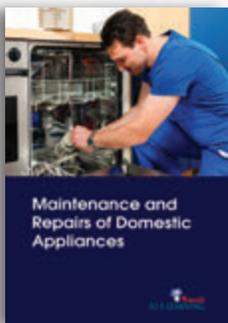

ISBN 978-1-98461-454-4 Price: \$90 | Year: 2020 | Interactive Course | Level: Beginner to Advanced
